What does a Pyrotechnics Engineer (designer of fireworks) have to do with Boy Scouts? Absolutely nothing. And that's what Abby Foxx tried to tell ... well, just about everybody. But she still got roped into being a merit badge counselor to a bunch of boys who towered over her and couldn't see past the perky, attractive, freckled beauty who was trying to instruct them on something she knew nothing about. Enter PJ. Abby wasn't sure where he came from, but when he claimed to have been an Eagle Scout himself, she couldn't turn down his offer to "help." And that was when the fireworks really began.

A handbook on earning the Boy Scout merit badge on mammals. Includes information on skinning,

making a tracking pit, and photographing mammals. A reprint of the first Boy Scouts handbook from 1911 covers woodcraft, camping, signs and signaling, first aid, chivalry, and games. This updated 2015 edition of Boy Scout Requirements details the official requirements for the Boy Scouts of America by providing the latest rank and merit badge requirements. The first step into a new craft can be overwhelming: Where to start? What tools to buy? What projects to begin with? Thanks to author and internationally acclaimed woodcarver Chris Pye, this guide is filled with everything a beginning woodcarver needs to know. Chris Pye's Woodcarving Course & Reference Manual is akin to having a one-on-one course with a master carver. You'll learn what to look for in a workbench, the importance of commissioning your carving tools – there's more to it than just sharpening! – and how to make exacting cuts and execute a variety of techniques. Like any good instructor, Pye includes practice exercises to make you comfortable with the tools and techniques so you can build your skills and carve with confidence. Pye's conversational teaching style will encourage you as you follow the step-by-step instructions and work on a number of motifs, as well as projects for low, high, and pierced relief, and in-the-round. With the help of Chris Pye, you'll learn to carve: four types of molding, a beautiful koi project in three levels of relief carving, a realistic baseball cap in-the-round, and a charming wren in-the-round. "This new edition is based on the 1996 edition written by Brent A. Neiser." Abstract: This study of science education in the Boy Scouts of America focused on males with Boy Scout experience. The mixed-methods study topics included: merit badge standards compared with National Science Education Standards, Scout responses to open-ended survey questions, the learning styles of Scouts, a quantitative assessment of science content knowledge acquisition using the Geology merit badge, and a qualitative analysis of interview responses of Scouts, Scout leaders, and scientists who were Scouts. The merit badge requirements of the 121 current merit badges were mapped onto the National Science Education Standards: 103 badges (85.12%) had at least one requirement meeting the National Science Education

Standards. In 2007, Scouts earned 1,628,500 merit badges with at least one science requirement, including 72,279 Environmental Science merit badges. "Camping" was the "favorite thing about Scouts" for 54.4% of the boys who completed the survey. When combined with other outdoor activities, what 72.5% of the boys liked best about Boy Scouts involved outdoor activity. The learning styles of Scouts tend to include tactile and/or visual elements. Scouts were more global and integrated than analytical in their thinking patterns; they also had a significant intake element in their learning style. Earning a Geology merit badge at any location resulted in a significant gain of content knowledge; the combined treatment groups for all location types had a 9.13% gain in content knowledge. The amount of content knowledge acquired through the merit badge program varied with location; boys earning the Geology merit badge at summer camp or working as a troop with a merit badge counselor tended to acquire more geology content knowledge than boys earning the merit badge at a one-day event. Boys retained the content knowledge learned while earning the merit badge. Scientists, Scout leaders, and Scouts felt that Scouts learned science through participation in the Boy Scout program, both in the merit badge program and also through activities, trips, outdoors, in meetings, and through rank advancement. On an open-ended questionnaire, 75.2% of Scouts reported that doing merit badges helped them do better in school. Scout leaders indicated that the overall Scouting environment introduced boys to science. Scout scientists credited Boy Scouts with providing experiences that interested and/or helped them in their scientific careers.
