Fundamentals of Nursing & Midwifery Mar 28 2020 A trusted person-centred resource to start you on the path to professional success *Fundamentals of Nursing and Midwifery* is a popular foundational nursing text specifically developed for Australian and New Zealand students. This comprehensive resource provides a detailed overview of key information with person-centred care highlighted throughout to focus on the individualistic, interactive and holistic nature of nursing and midwifery practice. It uses accessible language that introduces students to the 'why' as well as the 'how' of nursing and midwifery. It focuses not only on a person's physical healthcare needs, but also on the intellectual, emotional, sociocultural and spiritual aspects of care. In this way, students learn to be holistic health care professionals while acquiring the foundational knowledge, procedures and skills required for successful nursing or midwifery practice.

One Without the Other Oct 16 2021 In this bestseller, Shelley Moore explores the changing landscape of inclusive education. Presented through real stories from her own classroom experience, this passionate and creative educator tackles such things as inclusion as a philosophy and practice, the difference between integration and inclusion, and how inclusion can work with a variety of students and abilities. Explorations of differentiation, the role of special education teachers and others, and universal design for learning all illustrate the evolving discussion on special education and teaching to all learners. This book will be of interest to all educators, from special ed teachers, educational assistants and resource teachers, to classroom teachers, administrators, and superintendents.

Understanding the Life Course Sep 14 2021 Understanding the Life Course provides a uniquely comprehensive guide to the entire life course from an interdisciplinary perspective. Combining important insights from sociology and psychology, the book presents the concept's theoretical underpinnings in an accessible style, supported by real-life examples. From birth and becoming a parent, to death and grieving for the loss of others, Lorraine Green explores all stages of the life course through key research studies and theories, in conjunction with issues of social inequality and critical examination of lay viewpoints. She highlights the many ways the life course can be interpreted, including themes of linearity and multidirectionality, continuity and discontinuity, and the interplay between nature and nurture. The second edition updates key data and includes additional material on topics such as new technologies, changing markers of transitions to adulthood, active ageing, resilience and neuropsychology. This comprehensive approach will continue to be essential reading for students on vocational programmes such as social work and nursing, and will provide thought-provoking insight into the wider contexts of the life course for students of psychology and sociology.

pragmatic content in a balanced, complete style. --from publisher description.

Child Development, Fourth Edition Dec 06 2020 Now in a revised and updated fourth edition, this trusted text and professional resource provides a developmental framework for clinical practice. The authors examine how children's trajectories are shaped by transactions among family relationships, brain development, and the social environment. Risk and resilience factors in each of these domains are highlighted. Covering infancy, toddlerhood, the preschool years, and middle childhood, the text explores how children of different ages typically behave, think, and relate to others. Developmentally informed approaches to assessment and intervention are illustrated by vivid case examples. Observation exercises and quick-reference summaries of each developmental stage facilitate learning. New to This Edition *Incorporates a decade's worth of advances in knowledge about attachment, neurodevelopment, developmental psychopathology, intervention science, and more. *Toddler, preschool, and school-age development are each covered in two succinct chapters rather than one, making the book more student friendly. *Updated throughout by new coauthor Michael F. Troy, while retaining Douglas Davies's conceptual lens and engaging style.

Foundations of Education Jan 25 2020 *Foundations of Education* incorporates relevant interdisciplinary perspectives and emphasizes coverage of key issues in education, with up-to-date research, primary resources, and documentation. This text provides comprehensive and substantive coverage of all foundational areas--including social, philosophical, historical, political, economic, curricular, and legal--for students who are preparing for a career in teaching and for those who simply wish to learn more about significant contemporary issues in education. The authors have included strong, thought-provoking pedagogy, and have emphasized the growing role of technology

in education, especially in the new Technology@School feature. New! In This Case boxed features contain brief, fictional case scenarios that describe situations in which a new teacher might find themselves. Readers are asked to think critically about concepts discussed in each chapter to answer questions that encourage critical and applied analysis. New! Expanded topical overview charts in each chapter summarize and compare key developments and topics in education. New! Information about standards addresses the growing emphasis on holding students, teachers and schools accountable for performing at levels specified by local, state, and national standards. New sections focus on preparing teachers for the stress related to state/district standards, and legal issues, including the No Child Left Behind act, are addressed. Technology@School, a popular feature in every chapter, updates students on relevant developments in educational technology and provides information that may prove useful in their teaching careers. Topics include, Using the Internet to Learn About World Schools (Chapter 3), Helping Students Develop Media Literacy (Chapter 9), and Protecting Students from Undesirable Material on the Web (Chapter 13). Focus Questions appear at the beginning of each chapter and provide students with an organized reference to chapter material. Refocus Questions appear after major text sections and are designed to help reinforce and improve the students' comprehension by reviewing the information in the chapter. Taking issue charts appear in each chapter to present controversial issues in the field of education, offering arguments on both sides of a question to illustrate why the topic is important and how it affects contemporary schools. Instructors can use these charts as the basis for class discussions or essay assignments. Eduspace, a customizable, powerful, interactive platform, provides instructors with text-specific online courses and content in multiple disciplines. Eduspace gives an instructor the ability to create all or part of their course online using the widely recognized tools of Blackboard and quality text-specific content

from HMCo. Instructors can quickly and easily assign homework exercises, quizzes, tests, tutorials and supplemental study materials and can modify that content or even add their own.
