entrance examinations of AIIMS. The material is prepared after a thorough scanning of the latest textbooks, journals and research. God created a game - it's called The Game of Life. Planet Earth is the playing field, the 10 love commandments are the rules, and we humans are the players who can win or lose. The game is played by two teams, like the game of football. One team's head coach is Jesus and the other team's head coach is Satan. All of us on earth are playing for one of these two teams! Gabriel Ansley Erb wrote the book "2028 END" in order to fully elucidate God's game clock scenario for The Game of Life as contained in the game's handbook, the Holy Bible. The handbook says, "God declared the end from the beginning" (Isaiah 46:10) by using 7 days in the creation event. Each 24 hour creation day foretold of a future 1,000 year period for a total 7,000 year plan God had for The Game of Life to be played on planet earth. And amazingly, to confirm this is all true, God hid a secret prophesy in each creation day foretelling the greatest event He had planned to occur in that day's future millennium!Consequently, Creation day 1 foretold Adam & Eve's fall, which was fulfilled during earth's 1st millennium. Creation day 2 foretold Noah's global flood, which was fulfilled during earth's 2nd millennium. Creation day 3 foretold Moses' Red Sea parting, which was fulfilled during earth's 3rd millennium. Creation day 4 foretold of John the Baptist & Jesus Christ, and so they lived and died during earth's 4th millennium. And the prophecies continue with each Creation day!Gabriel proves all of the above, carefully revealing the prophetic Scriptures as well as the fulfillment Scriptures. Then he reveals a dozen Scriptures proving Christ died earth's 4,000 year and will return earth's 6,000 year. Finally, he proves Christ died Feast of Passover AD 28 and will return Feast of Trumpets 2028. For those who read this book, it is an open and shut case: The Game of Life will end 2,000 years from the year of Christ's death on the cross - AD 2028. Nursing Interventions Classification (NIC), 7th Edition provides a research-based clinical tool to help you choose appropriate interventions. More than 550 nursing interventions are described — from general practice to all specialty areas. From an expert author team led by Howard Butcher, this book is an ideal tool for practicing nurses and nursing students, educators seeking to enhance nursing curricula, and nursing administrators seeking to improve patient care. It's the only comprehensive taxonomy of nursing-sensitive interventions available! More than 550 research-based nursing intervention labels are included, along with specific activities used to carry out interventions. Descriptions of each intervention include a definition, a list of activities, a publication facts line, and references. Specialty core interventions are provided for 53 specialties. NEW! 16 NEW interventions are added to this edition, including health coaching, phytotherapy, management of acute pain, and management of chronic pain. UPDATED! 95 interventions have been revised. NEW! Five label name changes are included.
