**ACE the ACT® Book + Online** Dec 17 2021 ACE the ACT Book + Online Practice Tests Completely Up-to-date for the 2017 Exam Authored by America's top ACT expert, REA's innovative test prep gives high school students crucial test-taking strategies that can help them raise their score and get into the college of their choice. Four weekly study sessions cover the critical information students need to ace the English, math, science, and reading portions of the exam. An optional fifth week completely covers the enhanced ACT Writing Test. To round out students' preparation, practice tests pinpoint strengths and weaknesses and give students a realistic taste of the ACT test experience. Kelly C. Roell, M.A., is an author, certified teacher, lecturer, and longtime test prep guru. She taught high school English and Reading for years in one of the nation's top-ranked school districts (Hillsborough County, Florida), instructing students in the many facets of local, state, and national testing. Kelly ran an SAT test preparation course for advanced high school students, guiding them to focus their potential and raise their scores. Kelly has written daily test tips and articles for Scholastic.com and MSN.com. About REA's prep: \* Tips to boost your score on the Enhanced Writing Test \*Practice tests build your test-day confidence

**Abolishing School Fees in Africa** Jun 10 2021 Progress in literacy and learning, especially through universal primary education, has done more to advance human conditions than perhaps any other policy. Our generation has the possibility of becoming the first generation ever to offer all children access to good quality basic education. But it will only happen if we have the political commitment -- at the country as well as at the international level -- to give priority to achieve this first in human history. And it will only happen if also those who cannot afford to pay school fees can benefit from a complete cycle of good quality primary education. Investment in good quality fee-free primary education should be a cornerstone in any government's poverty reduction strategy.

**How To Pass Your Exams 4th Edition** Feb 28 2023 Whatever exams you're taking, this book really will make a big difference to your performance - at professional or academic level; Master's or GCSE; A level, essay or multiple choice. Many hard working, intelligent people still fail their exams through lack of confidence or poor exam technique. At least fifty per cent of a candidate's chances are down to: \*Taking the right attitude into the exam \*Using simple but very effective techniques in the exam itself \*Approaching your course of study in the right way These factors are your guarantee of success. They are easy to learn and proven beyond doubt. They will also boost your confidence so that you arrive in the exam room both ready and able to succeed. Contents: Preface; 1. Getting a sensible perspective; 2. What examiners want; 3. Getting set for success; 4. The role of parents, partners and fellow students; 5. Revision; 6. Special techniques; 7. As the exam approaches; 8. The exam; Index.

**Transforming Education and Development Policies for Pastoralist Communities in Kenya** Jan 30 2023 This study is a contribution towards exploring alternative but sustainable education policies for pastoralist societies and sets out to explore how pastoralist IKSs (Indigenous Knowledge Systems) can be integrated or used as an entry point to provide formal schooling to pastoralist communities in Kenya. Pastoralists constitute the majority of the socially and economically vulnerable groups in the country. Children, among pastoralist communities, face detrimental hardships that compromise their growth and development. One of these hardships is the imposition of an education and development paradigm that is irrelevant to their existence and which compounds their problems. This study therefore sought to explore how, through better government policies, the indigenous knowledge (IK) of pastoralists could be integrated into the curriculum of formal schooling. Specifically, the study discusses the following issues: Gaps in policies for schooling provision for pastoralist groups, with particular reference to the content of the curriculum and methods of delivery; Aspects of pastoralist IKS that can be integrated into the context of national education policy to enrich their schooling within; and General recommendations regarding the use of participatory and social engineering approaches in designing education and development policies affecting pastoralist communities in Kenya.

**THE EARLY GRADE READING ASSESSMENT** Jun 30 2020 The Early Grade Reading Assessment (EGRA) measures students' progress towards reading. EGRA gauges early literacy skills through a 15-minute individual oral assessment of five fundamental reading skills. RTI worked with education experts to develop the EGRA in 2006, and it has been piloted and implemented in more than 40 countries. This volume aims to take stock of the substantial amount of information and experience generated through the use of EGRA, and to share this knowledge with practitioners, policymakers, and international donors. Chapters cover not only particular applications of the instrument but also put EGRA in the context of broader issues and developments in literacy and education.

**The Troubled Crusade** Nov 15 2021 This widely praised history of the controversies that have beset American schools and universities since World War II is essential reading for anyone who wants to understand the condition of American education today.

**Contemporary Oral Literature Fieldwork** May 29 2020 Contemporary Oral Literature Fieldwork is based on rich research experience dating back to the 1990s. The book is written against the backdrop of Africa's confusion with regard to the place of oral literature in the face of the rest of the world, where oral literature exists in conjunction with new literary forms. Wasamba argues that the oral and the written literatures are complementary literary forms. Throughout the work, the author underscores the universal dimension of oral literature as he demonstrates its particular attributes.

**Electronic Participation** Feb 04 2021 This book constitutes the proceedings of the 11th IFIP WG 8.5 International Conference on Electronic Participation, ePart 2019, held in San Benedetto del Tronto, Italy, in September 2019, in conjunction with the 18th IFIP WG 8.5 IFIP International Conference on Electronic Government (EGOV 2019) and the International Conference for E-Democracy and Open Government Conference (CeDEM 2019). The 13 revised full papers presented were carefully reviewed and selected from 26 submissions. The papers are clustered under the following topical sections: eParticipation Developments; Digital Transformations; Crisis and Emergency Management; and User Perspectives.

**GTA 31-01-003 Special Forces Detachment Mission Planning Guide** Mar 20 2022 This publication outlines the planning process as it relates to a Special Forces (SF) operational detachment-alpha (ODA) conducting deliberate planning for special operations. Planning is an essential task common to all aspects of SF operations. More content available at: [doguedebordeauxsurvival.com](http://doguedebordeauxsurvival.com)

**Unbowed** Nov 03 2020 In Unbowed, Nobel Prize winner Wangari Maathai recounts her extraordinary journey from her childhood in rural Kenya to the world stage. When Maathai founded the Green Belt Movement in 1977, she began a vital poor people's environmental movement, focused on the empowerment of women, that soon spread across Africa. Persevering through run-ins with the Kenyan government and personal losses, and jailed and beaten on numerous occasions, Maathai continued to fight tirelessly to save Kenya's forests and to restore democracy to her beloved country. Infused with her unique luminosity of spirit, Wangari Maathai's remarkable story of courage, faith, and the power of persistence is destined to inspire generations to come.

**Radio's Digital Dilemma** Dec 05 2020 Radio's Digital Dilemma is the first comprehensive analysis of the United States' digital radio transition, chronicling the technological and policy development of the HD Radio broadcast standard. A story laced with anxiety, ignorance, and hubris, the evolution of HD Radio pitted the nation's largest commercial and public broadcasters against the rest of the radio industry and the listening public in a pitched battle over defining the digital future of the medium. The Federal Communications Commission has elected to put its faith in "marketplace forces" to govern radio's digital transition, but this

has not been a winning strategy: a dozen years from its rollout, the state of HD Radio is one of dangerous malaise, especially as newer digital audio distribution technologies fundamentally redefine the public identity of "radio" itself. Ultimately, Radio's Digital Dilemma is a cautionary tale about the overarching influence of economics on contemporary media policymaking, to the detriment of notions such as public ownership and access to the airwaves—and a call for media scholars and reformers to engage in the continuing struggle of radio's digital transition in hopes of reclaiming these important principles.

**Left Back** Mar 08 2021 In this authoritative history of American education reforms in this century, a distinguished scholar makes a compelling case that our schools fail when they consistently ignore their central purpose--teaching knowledge.

**Electronic Participation** Jan 06 2021 This book constitutes the proceedings of the 13th IFIP WG 8.5 International Conference on Electronic Participation, ePart 2021, held in Granada, Spain, in September 2021, in conjunction with IFIP WG 8.5 Electronic Government (EGOV 2021), the Conference for E-Democracy and Open Government Conference (CeDEM 2021). The 16 full papers presented were carefully reviewed and selected from 37 submissions. The papers are clustered under the following topical sections: digital participation, digital society, digital government and legal issues.

**An Educational Calamity** Jan 18 2022 The Covid-19 pandemic caused major disruptions to education around the world. Since the World Health Organization declared a pandemic on March 11, 2020, most students on the planet were affected by the interruption of in-person schooling. To mitigate the educational loss such interruption would cause, education authorities the world over created a variety of alternative mechanisms of education delivery. They did so quickly and with insufficient knowledge about what would work well, for which children, and for what aspects of the schooling experience. Having to create such alternative arrangements in short order was the ultimate adaptive leadership challenge, one for which no playbook existed, one for which solutions would have to be invented, rather than drawn from existing technical knowledge. The nature of the challenge differed across the world and regions, and it differed also within countries as a function of the differential public health and economic impact of the pandemic on communities, and of variations in institutional and financial resources available to redress such impact, including availability of digital infrastructure and previous knowledge and experience of teachers and students with digi-pedagogies and other resources to create alternative education delivery systems. Sustaining educational opportunities amidst these challenges created by the pandemic was an example of adaptive education response not to a unique unexpected challenge but to one in a larger class of problems, just one of the many adaptive conundrums facing communities and societies. Beyond the challenges resulting from the pandemic, other complications of that sort predated the pandemic included those resulting from poverty, inequality, social inclusion, governance, climate change, among others. In some ways, the pandemic served as an accelerant for some of those, augmenting their impact or underscoring the urgency of addressing them. Adaptive puzzles of this sort, including pandemics, are likely to continue to impact education systems in the foreseeable future. This makes it necessary to strengthen the capacity of education systems to respond to them. Reimagining education systems so they are resilient in the face of adaptive challenges is an opportunity to mobilize new talent and institutional resources. Partnerships between school systems and universities can contribute to those reimagined and more resilient systems, they can enhance the institutional capacity of education systems to devise solutions and to implement them. Such partnerships are also an opportunity for universities to be more deliberate in integrating their three core functions of research, teaching and outreach in service of addressing significant social challenges in a context in rapid flux. In this book we present the results of one approach to produce the integration between research, teaching and outreach just described, resulting from engaging graduate students in collaborations with school systems for the purpose of helping identify ways to sustain educational opportunity during the disruption caused by the pandemic. This activity engaged our students in research and analysis, contributing to their education, and it engaged them in service to society. The book examines what happened to educational opportunity during the Covid-19 pandemic in Bangladesh, Belize, the municipality of Santa Ana in Costa Rica, Guatemala, Kenya, in the States of Sinaloa and Quintana Roo in Mexico, South Africa, United Arab Emirates, and in the United States in Richardson Independent School District in Texas. It offers a systematic analysis of policy options to sustain educational opportunity during the pandemic.

**Incentives to Learn** Oct 03 2020 "We report results from a randomized evaluation of a merit scholarship program for adolescent girls in Kenya. Girls who scored well on academic exams had their school fees paid and received a cash grant for school supplies. Girls eligible for the scholarship showed significant gains in academic exam scores (average gain 0.12-0.19 standard deviations) and these gains persisted following the competition. There is also evidence of positive program externalities on learning: boys, who were ineligible for the awards, also showed sizeable average test gains, as did girls with low pretest scores, who were unlikely to win. Both student and teacher school attendance increased in the program schools. We discuss implications both for understanding the nature of educational production functions and for the policy debate surrounding merit scholarships"--National Bureau of Economic Research web site.

**Kiswahili, Msingi Wa Kusema Kusoma Na Kuandika** Feb 25 2020 This is a comprehensive manual intended to teach students the basics of communicating in Swahili at an elementary level. It is designed to teach major communicative skills such as speaking, listening, reading, and writing. Moreover, the text strives to impart fundamental knowledge about East African and Swahili culture.

**School Meals, Educational Achievement, and School Competition** May 22 2022 Vermeersch and Kremer examine the effects of subsidized school meals on school participation, educational achievement, and school finance in a developing country setting. They use data from a program that was implemented in 25 randomly chosen preschools in a pool of 50. Children's school participation was 30 percent higher in the treatment group than in the comparison group. The meals program led to higher curriculum test scores, but only in schools where the teacher was relatively experienced prior to the program. The school meals displaced teaching time and led to larger class sizes. Despite improved incentives, teacher absenteeism remained at a high level of 30 percent. Treatment schools raised their fees, and comparison schools close to treatment schools decreased their fees. Some of the price effects are caused by a combination of capacity constraints and pupil transfers that would not happen if the school meals were ordered in all schools. The intention-to-treat estimator of the effect of the randomized program incorporates those price effects, and therefore it should be considered a lower bound on the effect of generalized school meals. This insight on price effects generalizes to other randomized program evaluations. This paper--a product of the Poverty Reduction and Economic Management 2, Africa Technical Families--is part of a larger effort in the region to increase our understanding of the impact of programs aimed at reaching the Millennium Development Goals.

**Raising School Quality in Developing Countries** Sep 13 2021 Low levels of student achievement and school quality persist in developing countries. This document reviews the importance of school quality in increasing literacy and influencing economic growth in developing nations. Improvements are discussed in terms of: (1) school quality and economic development; (2) defining school quality; (3) improving school quality; and (4) increasing school efficiency. Evidence suggests that low school quality accounts for low literacy levels and achievement among children in developing nations and that little progress has occurred in improving school quality in the poorest countries since 1970. Definitions of school quality should focus on characteristics that influence student achievement and on efforts that encourage more efficient management and effective local school staff. Little research has been conducted about the influence of teaching practices and classroom organization on achievement levels, but access to textbooks and writing materials and teacher quality consistently influence student achievement. Methods for studying the efficiency and cost-effectiveness of management practices in terms of increased school quality are reviewed, and investments that can be reduced without causing detrimental effects are identified. Tables and a 94-item bibliography are included. (Author/JHP)

**Education, Productivity, and Inequality** Dec 25 2019 The relationship between resources devoted to education and the economy of developing nations is explored. The research seeks to understand if and how investment in education translates into increased economic growth and labor productivity. Additionally, the function of education in reducing various dimensions of economic inequality is examined. The two East African nations that are the study's focus, Kenya and Tanzania, have similar levels of income, but they differ markedly in their public policy toward the provision of secondary education and thus in the educational attainment of the labor force. The research findings provide strong backing for the human capital paradigm: educational expansion is shown to raise labor productivity. The results also show that making education less scarce diminishes inequality in access to education and in income. Numerous figures and tables of data appear throughout this volume; a list of 170 references is included. (DB)

**The Politics and Governance of Basic Education** Apr 28 2020 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world, economic inclusion has risen to the top of the development discourse. A well-performing education system is central to achieving inclusive development - but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased, but quality remains low, with weaknesses in governance comprising an important part of the explanation. The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making process, combining practical steps to achieve incremental gains to re-orient the system towards learning.

**Cambridge IGCSE Maths Revision Guide** Apr 08 2021 Letts Cambridge IGCSE(R) Maths Revision Guide provides clear and accessible revision content to support all students, with lots of practice opportunities to build your confidence and help you prepare for your Cambridge IGCSE(R) Maths assessments. Covering the latest Cambridge IGCSE(R) Maths syllabus, this revision guide includes: - Clear and concise syllabus coverage, with the extended material clearly differentiated- Topics in short, user-friendly sections to help you plan your revision in manageable chunks- Revision tips to provide essential assessment guidance- Quick test and exam-style practice questions for every topic, so you can check your progress and develop your exam skills- A supporting glossary with easy-to-understand definitions of key terms

**Inflation Targeting and Private Sector Forecasts** Jun 22 2022 Transparency is one of the biggest innovations in central bank policy of the past quarter century. Modern central bankers believe that they should be as clear about their objectives and actions as possible. However, is greater transparency always beneficial? This report studies the degree to which increased info. about monetary policy might lead to individuals coordinating their forecasts. The authors estimate a series of simple models to measure the impact of inflation targeting on the dispersion of private sector forecasts of inflation. Using a panel data set that includes 15 countries over 20 years they find no convincing evidence that adopting an inflation targeting regime leads to a reduction in the dispersion of private sector forecasts of inflation.

**2008 Report on the Global AIDS Epidemic** Mar 27 2020 Provides an overview of the global distribution of AIDS cases, looks at the societal causes of HIV infections, discusses prevention and treatment options, and describes the epidemic's effect on society.

**The Caucasian Chalk Circle** Aug 13 2021 Brecht projects an ancient Chinese story onto a realistic setting in Soviet Georgia. In a theme that echoes the Judgment of Solomon, two women argue over the possession of a child. Thanks to the unruly judge, Azdak (one of Brecht's most vivid creations) natural justice is done and the peasant Grusha keeps the child she loves, even though she is not its mother. Written while Brecht was in exile in the United States during the Second World War, The Caucasian Chalk Circle is a politically charged, much-revived and complex example of Brecht's epic theatre. This new Student Edition contains introductory commentary and notes by Kristopher Imbriggota from the University of Puget Sound, US, offering a much-needed contemporary perspective on the play. The introduction covers: - narrative structure: play about a play within a play ("circle") - songs and music - justice and social systems - context: Brecht, exile, WWII, socialism - notions of collective and class - fable and story adaptation, folk fairy tale

**Juvenile Injustice** Jul 12 2021 Use of deadly forces

**Mechanics: The Science of Machinery** Oct 15 2021 The book is written not just for a mechanical engineer but also for the layman who would learn of the mechanical contrivances that contribute to his material welfare. The author has avoided the use of technical terms, as far as possible, and where inescapable, the technical words have been explained and defined. The book covers topics from "Tool Making Animals" to "Engines of Destruction". Through this work, the author has aimed to give a detailed and thorough view of the whole story of human progress in all things mechanical. It's the entire story of machinery, from primitive man's first tries to expand his physical powers with mechanical aids down to that era of early 1900s where massive, steel-muscled machinery and marvelously complex mechanisms, is the story of human advancement.

**Computer and Communication Networks** Jan 24 2020 Computer and Communication Networks, Second Edition first establishes a solid foundation in basic networking concepts, TCP/IP schemes, wireless networking, Internet applications, and network security. Next, Mir delves into the mathematical analysis of networks, as well as advanced networking protocols. This fully-updated text thoroughly explains the modern technologies of networking and communications among computers, servers, routers, and other smart communication devices, helping readers design cost-effective networks that meet emerging requirements. Offering uniquely balanced coverage of all key basic and advanced topics, it teaches through extensive, up-to-date case studies, 400 examples and exercises, and 250+ illustrative figures. Nader F. Mir provides the practical, scenario-based information many networking books lack, and offers a uniquely effective blend of theory and implementation. Drawing on extensive experience in the field, he introduces a wide spectrum of contemporary applications, and covers several key topics that competitive texts skim past or ignore completely, such as Software-Defined Networking (SDN) and Information-Centric Networking.

**Blossoms of the Savannah** Jul 24 2022 Blossoms of the Savannah is the story of two sisters, Taiyo and Resian, who are on the verge of womanhood and torn between their personal ambitions and the humiliating duty to the Nasila tradition. Relocation to their rural home heralds a cultural alienation born of their refusal to succumb to female genital mutilation and early marriages. In pursuit of the delicate and elusive socio-economic cultural balance in Nasila, Ole. Kaelo, the girls' father is ensnared by a corrupt extortionist. To extricate himself he sends his daughters into a flat-spin labyrinth from which they have to struggle to escape.
