Live Long, Die Short Dec 26 2022 Over a decade ago, a landmark ten-year study by the MacArthur Foundation shattered the stereotypes of aging as a process of slow, genetically determined decline. Researchers found that that 70 percent of physical aging, and about 50 percent of mental aging, is determined by lifestyle, the choices we make every day. That means that if we optimize our lifestyles, we can live longer and “die shorter”—compress the decline period into the very end of a fulfilling, active old age. Dr. Roger Landry and his colleagues have spent years bringing the MacArthur Study’s findings to life with a program called Masterpiece Living. In *Live Long, Die Short*, Landry shares the incredible story of that program and lays out a path for anyone, at any point in life, who wants to achieve authentic health and empower themselves to age in a better way. Writing in a

friendly, conversational tone, Dr. Landry encourages you to take a “Lifestyle Inventory” to assess where your health stands now and then leads you through his “Ten Tips,” for successful aging, each of which is backed by the latest research, real-life stories, and the insights Landry—a former Air Force surgeon and current preventive medicine physician—has gained in his years of experience. The result is a guide that will reshape your conception of what it means to grow old and equip you with the tools you need to lead a long, healthy, happy life.

Short Letter, Long Farewell Dec 02 2020 By Nobel Prize Winner Peter Handke Short Letter, Long Farewell is one the most inventive and exhilarating of the great Peter Handke’s novels. Full of seedy noir atmospheric and boasting an air of generalized delirium, the book starts by introducing us to a nameless young German who has just arrived in America, where he hopes to get over the collapse of his marriage. No sooner has he arrived, however, than he discovers that his ex-wife is pursuing him. He flees, she follows, and soon the couple is running circles around each other across the length of America—from Philadelphia to St. Louis to the Arizona desert, and from Portland, Oregon, to L.A. Is it love or vengeance that they want from each other? Everything’s spectacularly unclear in a book that is travelogue, suspense story, domestic comedy, and Western showdown, with a totally unexpected Hollywood twist at the end. Above all, Short Letter, Long Farewell is a love letter to America, its landscapes and popular culture, the invitation and the threat of its newness and wildness and emptiness, with the promise of a new life—or the corpse of an old one—lying just around the corner.

Long Story Short Jan 03 2021 A collection of cartoons, illustrations, and paintings that condense the complicated narratives of famous books into one-page works of art. "A subversive volume that translates a series of complex works of

literature into a single-page illustration...A variety of artists rise to a unique literary and visual challenge." --Kirkus Reviews "One of the most fascinating books I have had the pleasure to 'flip through' in the past decade or more!" --Exclusive Magazine "Mr. Fish's chameleon-like versatility makes him the Ween of cartooning. He and his band of accomplices jolt you from one literary world to the next, each illustration like a little puzzle testing your cultural literacy. A short-attention-span joyride." --Jen Sorensen, Herblock Prize–winning cartoonist, the Nib, Daily Kos, and the Nation "Words fail me when I try to explain why Long Story Short is so brilliant, which I guess is the whole point of the book! Why talk over Beethoven (he wouldn't be able to hear you, anyway) or yammer on about poetry when a mute sunset can do it better? Here is art from an incredibly diverse group of cartoonists, painters, and illustrators that speaks for itself on literature's most novel ideas--now shut up and listen!" --Bob Mankoff, former cartoon editor of the New Yorker "Mr. Fish's ingenious collection of cartoon distillations of famous books shows why print editors so fear the art form. These succinct drawings by Fish and his artist collaborators really ARE worth a thousand words, and in Tolstoy's case, many more!" --Signe Wilkinson, Pulitzer Prize–winning cartoonist, Philadelphia Inquirer and the Daily News The Catcher in the Rye. Lolita. Moby-Dick. Infinite Jest. I Know Why the Caged Bird Sings. A Room of One's Own. Native Son. These are but a handful of classic works spectacularly distilled by Mr. Fish and a very talented group of painters, illustrators, graphic designers, and political cartoonists into succinct snapshots that are at times funny, sad, inspiring, rude, crude, beautiful, profound, stomach-turning, and mind-blowing. Includes original artwork from: Mr. Fish, Ted Rall, Stephanie McMillan, Sarah Awad, Eli Valley, Wes Tyrell, Tamara Knoss, Keith Henry Brown, Sam Henderson, Lodi Marasescu, Surag Ramachandran, Tami Knight, Eric J. Short Selling for the Long Term Mar 29 2023 Find a method to evaluate stocks— and build a record of impressive returns *Short Selling for the Long Term* describes the methods used by Joseph Parnes, President of Technomart, to obtain consistent returns in the stock market. Most investors fail to exceed the returns represented by the Standard and Poor's Stock Index, but Parnes often does using his investment philosophy. This book outlines his method of stock assessment, providing an understandable formula. If the formula tells a reader to buy a stock, then, as explained, there is a significant chance that stock will go up. If the formula tells a reader to short a stock, then the book shows how there is a significant chance that the stock will go down. Parnes advocates the use of short selling as a long-term strategy in combination with long positions, so advisors and individual investors alike can profit in both rising and falling markets. While most investing books focus on how to make money over the long term in a rising markets, Parnes's focus on short selling as a way of capturing volatility sets this book apart from the crowd. He offers insights into the difference between option trading and shorting

which make his system useful in both type of markets. • Profit in a bear market • Borrow the stock you want to bet against • Sell borrowed shares • Learn the secrets of long-term short selling strategy • Buy shares back and close by delivering at the new, lower price Short Selling for the Long Term is essential reading for investment advisors, fund managers, and individual investors.

Long Story Short Apr 18 2022 Literature is long. Comics are short. Does Proust get you down? Do you find *The Unbearable Lightness of Being* simply unbearable? Is *The Inferno* your own private hell? Do you long to be conversant about classics like *Moby Dick*, the *Bhagavad Gita*, *Madame Bovary*, and, um, *Twilight*? Bestselling illustrator Lisa Brown (*The Airport Book*; *Baby, Mix Me a Drink*) did her homework. *Long Story Short* offers 100 pithy and skewering three-panel literary summaries, from curriculum classics like *Don Quixote*, *Lord of the Flies*, and *Jane Eyre* to modern favorites like *Beloved*, *The Brief Wondrous Life of Oscar Wao*, and *Atonement*, conveniently organized by subjects including "Love," "Sex," "Death," and "Female Trouble." Lisa Brown's *Long Story Short* is the perfect way to turn a traipse through what your English teacher called "the canon" into a frolic—or to happily cram for the next occasion that requires you to appear bookish and well-read.

[The Long and the Short of It](#) Sep 23 2022 Everything that lives will die. That's the fundamental fact of life. But not everyone dies at the same age: people vary wildly in their patterns of aging and their life spans—and that variation is nothing compared to what's found in other animal and plant species. A giant fungus found in Michigan has been alive since the Ice Age, while a dragonfly lives but four months, a mayfly half an hour. What accounts for these variations—and what can we learn from them that might help us understand, or better manage, our own aging? With *The Long and*

the Short of It, biologist and writer Jonathan Silvertown offers readers a witty and fascinating tour through the scientific study of longevity and aging. Dividing his daunting subject by theme—death, life span, aging, heredity, evolution, and more—Silvertown draws on the latest scientific developments to paint a picture of what we know about how life span, senescence, and death vary within and across species. At every turn, he addresses fascinating questions that have far-reaching implications: What causes aging, and what determines the length of an individual life? What changes have caused the average human life span to increase so dramatically—fifteen minutes per hour—in the past two centuries? If evolution favors those who leave the most descendants, why haven't we evolved to be immortal? The answers to these puzzles and more emerge from close examination of the whole natural history of life span and aging, from fruit flies, nematodes, redwoods, and much more. The Long and the Short of It pairs a perpetually fascinating topic with a wholly engaging writer, and the result is a supremely accessible book that will reward curious readers of all ages.

Long Story Short Aug 22 2022 “Like the best of the Bard himself, *Long Story Short* combines dazzling repartee with iconic, nuanced characters and the kind of charged, perfectly paced romance fit for the world stage...a sparkling Shakespearean homage and a wonderful debut.” —Emily Wibberley and Austin Siegemund-Broka, authors of *Always Never Yours* In Serena Kaylor's sparkling debut, a homeschooled math genius finds herself out of her element at a theater summer camp and learns that life—and love—can't be lived by the (text)book. Growing up homeschooled in Berkeley, California, Beatrice Quinn has always dreamed of discovering new mathematical challenges at Oxford University. She always thought the hardest part would be getting in, not convincing her parents to let her go. But while math has always made sense to Beatrice, making friends is a problem she hasn't been able to solve. Before her parents will send her halfway across the world, she has to prove she won't spend the next four years hiding in the library. The compromise: the Connecticut Shakespearean Summer Academy and a detailed list of teenage milestones to check off. If Beatrice wants to live out her Oxford dream, she has to survive six weeks in the role of “normal teenager” first. Unfortunately, hearts and hormones don't follow any equations. When she's adopted by a group of eclectic theater kids, and immediately makes an enemy of the popular—and annoyingly gorgeous—British son of the camp's founders, Beatrice quickly learns that relationships are trickier than calculus. With her future on the line, this girl genius stumbles

through illicit parties, double dog dares, and more than her fair share of Shakespeare. But before the final curtain falls, will Beatrice realize there's more to life than what she can find in the pages of a book?

Market Neutral Investing Feb 28 2023 In today's volatile markets, managing risk is more important than ever. Investors are looking for downside protection while maintaining good returns--and market-neutral investing has become one of the hottest methods to meet that need. In this book, industry expert Joseph G. Nicholas explores new approaches to return enhancement and risk reduction through market-neutral strategies. Market-neutral investments are attractive because they have produced substantially better risk-adjusted returns than the market during the past ten years. The complexities created by the combination of longs, shorts, and leverage, however, make market-neutral strategies very different from conventional investments.

Getting to know how these strategies work involves breaking them down into their basic components and then examining how those parts interact as a system with specific behavior characteristics. This book examines eight key strategies, revealing the source of their past returns and giving the investor tools with which to measure the possibility of repeat performance. Nicholas draws extensively on his company's database of over three thousand hedge funds and from the daily portfolio analysis conducted for hedge fund portfolios. He has also incorporated extensive input and actual investment examples provided by managers and practitioners of each of the strategies discussed in the book. This is the one book that looks at market-neutral strategies head-on, assessing those that have worked and some notable ones that have failed--and explaining why. Clear, insightful, and illustrated with numerous charts and graphs, *Market-Neutral Investing* is an invaluable guide for professional investors.

Long Days, Short Years Feb 16 2022 How parenting became a verb, from Dr. Spock and June Cleaver to baby whispering and free-range kids. When did “parenting” become a verb? Why is it so hard to parent, and so rife with the possibility of failure? Sitcom families of the past—the Cleavers, the Bradys, the Connors—didn’t seem to lose any sleep about their parenting methods. Today, parents are likely to be up late, doomscrolling on parenting websites. In *Long Days, Short Years*, Andrew Bomback—physician, writer, and father of three young children—looks at why it can be so much fun to be a parent but, at the same time, so frustrating and difficult to parent. It’s not a “how to” book (although Bomback has read plenty of these) but a “how come” book, investigating the

emergence of an immersive, all-in approach to raising children that has made parenting a competitive (and often not very enjoyable) sport. Drawing on parenting books, mommy blogs, and historical accounts of parental duties as well as novels, films, podcasts, television shows, and his own experiences as a parent, Bomback charts the cultural history of parenting as a skill to be mastered, from the laid-back Dr. Spock's 1950s childcare bible—in some years outsold only by the actual Bible—to the more rigid training schedules of Babywise. Along the way, he considers the high costs of commercialized parenting (from the babymoon on), the pressure on mothers to have it all (and do it all), scripted parenting as laid out in *How to Talk So Kids Will Listen*, parenting during a pandemic, and much more.
