Look Me in the Eye Sep 01 2020 NEW YORK TIMES BESTSELLER • “As sweet and funny and sad and true and heartfelt a memoir as one could find.” —from the foreword by Augusten Burroughs Ever since he was young, John Robison longed to connect with other people, but by the time he was a teenager, his odd habits—an inclination to blurt out non sequiturs, avoid eye contact, dismantle radios, and dig five-foot holes (and stick his younger brother, Augusten Burroughs, in them)—had earned him the label “social deviant.” It was not until he was forty that he was diagnosed with a form of autism called Asperger’s syndrome. That understanding transformed the way he saw himself—and the world. A born storyteller, Robison has written a moving, darkly funny memoir about a life that has taken him from developing exploding guitars for KISS to building a family of his own. It’s a strange, sly, indelible account—sometimes alien yet always deeply human.

**Land Rover Design - 70 Years of Success**Dec 05 2020 A landmark new history from design journalist Nick Hull, Land Rover Design – 70 years of Success offers a detailed insight to the company's design story, from the early days of Land Rover in Solihull to the latest generation of the Range Rover Velar in 2018. The Land Rover was born from a desperate need by the Rover Company to develop a stop-gap model to provide cashflow in the post-war years. The original aim of a simple 4x4 agricultural tool soon developed into a multi-purpose vehicle that became the mainstay of the British Army and produced numerous offshoots for the emergency services, police, forestry and aid agencies worldwide. This book details the personalities involved in the various projects since the late 1940s up to today: the designers, modellers and studio engineers. It charts the development of Land Rover and Range Rover projects in the UK, particularly those designed in the Gaydon studio that opened in 1996, and is still a key part of JLR’s design resource. From the early days of chalk drawings and wooden models to today’s digital renderings and milled clays for the latest Range Rover Evoque, Land Rover’s designers and technicians have never been short of creativity. This book tells their story, in their own words, and is a fitting tribute to the spirit and ethos of Land Rover design and engineering.

**Jue 477** May 22 2022 Revealed to the world in 1948, the Land-Rover not only revived the Rover Company's fortunes in an austerity-riddled post-war period, but galvanized its future, thanks to the model's almost immediate success. With the manufacture of an initial 48 'pre-production' examples coming to a close, the first official production models were assembled - starting with chassis 860001. As original factory records prove, this pivotal vehicle was destined for His Royal Highness King George VI, but the decision was made to postpone the presentation and instead, 'number one' was retained by the factory until 1950, when it was registered JUE 477 before leaving Rover Company ownership. After decades left out in the cold and exposed to the elements, 860001 had certainly seen better days, but thanks to the determination of Sir Jim Ratcliffe, founder and Chairman of INEOS, the future of JUE 477 was secured in 2017. Over the next two years, a dedicated team of experts, led by chief restorer, Julian Shoolheifer set about restoring the vehicle while retaining as much of its original DNA as was physically, and safely, possible and making sure that this remarkable vehicle's history and past life was still worn with pride.

**Be Kind, Be Calm, Be Safe** Oct 03 2020 From the BC doctor who has become a household name for leading the response to the pandemic, a personal account of the first weeks of COVID, for readers of Sam Nutt's Damned Nations and James Maskayk's Life on the Ground Floor. Dr. Bonnie Henry has been called "one of the most effective public health figures in the world" by The New York Times. She has been called "a calming voice in a sea of coronavirus madness," and "our hero" in national newspapers. But in the waning days of 2019, when the first rumours of a strange respiratory ailment in Wuhan, China began to trickle into her office in British Columbia, these accolades lay in a barely imaginable future. Only weeks later, the whole world would look back on the previous year with the kind of nostalgia usually reserved for the distant past. With a staggering suddenness, our livelihoods, our closest relationships, our habits and our homes had all been transformed. In a moment when half-truths threatened to drown out the truth, when recklessness all too often exposed those around us to very real danger, and when it was difficult to tell paranoia from healthy respect for an invisible threat, Dr. Henry's transparency, humility, and humanity became a beacon for millions of Canadians. And her trademark enjoinder to be kind, be calm, and be safe became words for us all to live by. Coincidentally, Dr. Henry's sister, Lynn, arrived in BC for a long-planned visit on March 12, just as the virus revealed itself as a pandemic. For the four ensuing weeks, Lynn had rare insight into the whirlwind of Bonnie's daily life, with its moments of agony and gravity as well as its occasional episodes of levity and grace. Both a global story and a family story, Be Kind, Be Calm, Be Safe combines Lynn's observations and knowledge of Bonnie's personal and professional background with Bonnie's recollections of how and why decisions were made, to tell in a vivid way the dramatic tale of the four weeks that changed all our lives. Be Kind, Be Calm, Be Safe is about communication, leadership, and public trust; about the balance between politics and policy; and, at heart, about what and who we value, as individuals and a society. The authors' advance from the publisher has been donated to charities with a focus on alleviating communities hit particularly hard by the pandemic: True North Aid with its Covid-19 response in Northern Indigenous communities, and First Book Canada, with its focus on reading and literacy for underserved, marginalized youth. **Lemon-Aid Used Cars and Trucks 2012–2013** Apr 08 2021 Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012–2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.
