"The Vine of Desire continues the story of Anju and Sudha, the two young women at the center of Divakaruni's bestselling novel "Sister of My Heart. Far from Calcutta, the women meet again, of their childhood, and after years of living separate lives, Anju and Sudha rekindle their friendship in America. The deep-seated love they feel for each other provides the support each of them needs. It gives Anju the strength to pick up the pieces of her life after a miscarriage, and Sudha the confidence to make a life for herself and her baby daughter, Dayita-without her husband. The women's bond is shaken to the core when they must confront the passionate feelings that Anju's husband has for Sudha. Meanwhile, the unlikely relationships they form with men and women in the world outside the immigrant Indian community as well as with their families in India profoundly transform them, forcing them to question the central assumptions of their lives. A moving and satisfying sequel to "Sister of My Heart, "The Vine of Desire stands on its own as a novel of extraordinary depth and sensitivity. Through the eyes of people caught in the clash of cultures, Divakaruni explores the rewards and the perils of breaking free from the past and the complex, often contradictory emotions that shape the passage to independence.

The Alchemy of Desire Feb 16 2022 Set against the brilliantly drawn backdrop of India at the turn of the millennium, *The Alchemy of Desire* tells the story of a young couple, penniless but gloriously in love. Obsessed with each other, they move from a small town to the big city, where the man dreams of being a writer, works feverishly on a novel, stopping only to satisfy his ceaseless desire for his beautiful wife. After receiving a small inheritance, the lovers abandon the city for a mist-shrouded spur of the lower Himalayas and move into a sprawling old house which they hope will embody their dreams. At first they pursue their deep physical need with a reckless intensity, but during renovations of the house, a set of diaries written by the previous inhabitant -- a glamorous American adventuress -- is unearthed, and the narrator finds himself irresistibly drawn away from his wife, and thence

another world and time, into the hole of history. Increasingly infatuated with the other woman, he slowly begins to uncover the dark secrets at the heart of her story, until the shocking truth is laid bare, and all certainties are overturned. Quick-paced and inventive, brimming with ideas and memorable characters, *The Alchemy of Desire* celebrates the chaotic spirit of a country during a time of great change. It also offers, in searing, lucid prose, a sensual and moving account of the complex chemistry between sex, art, and love. This is a major novel by one of the most significant new voices of the generation.

*Journeys of Desire* Nov 15 2021 From the late seventeenth century until the Dutch conquest of the early twentieth Century Bali was ruled by a series of competing kingdoms. This study of the Balinese text *Kidung Malat* is the first work in Indonesian historical studies to analyse the main ideology of the Balinese kingdoms. It does so by demonstrating how the performance and presentation of the text presented an image of the ideal prince to both rulers and subjects. The *Kidung Malat* exemplifies courtly ideology through its descriptions of the adventures of kings and princes from the era of the medieval kingdoms of East Java. It is one of the longest and most complete set of narratives called *Pañji* stories, which originated in East Java and spread throughout Southeast Asia. This book is also the first extensive historical analysis of a *Pañji* story, combining textual analysis with the study of the *gambuh* dance-drama in which the *Malat* is performed, and comparing these forms with paintings and other manifestations of the text.

*Authority and Desire* Aug 25 2022 "*Authority and Desire*" focuses on the complexity of political discourse in a selection of Shakespeare's Jacobean dramas and Racine's tragedies. Particular attention is paid to the relationship dramatised between the transforming communities of the governing and the governed in these plays. This wide-ranging study reveals how the form of such relations is profoundly involved with the cultural theorising of authority (linked to the legitimising forces of caste, kinship, gender

expectation, sanctification and so on), and with the politics of human stimulation by the cultural spectacles of power assertion.

Disorders of Desire Jan 24 2020 This is the first book to examine the development and impact of sexology-the scientific study of sex-in the States. Briefly recounting its century-long history, Janice Irvine begins with the pioneering research of Alfred Kinsey and analyzes the attempt by sexologists to associate themselves with biomedical methodology in order to achieve the status of respected professionals in this country. Considering the development of modern sexological research and the clinical practice of sex therapy in the context of a broader social history of sexuality and gender, Irvine reveals how the content and direction of sexual science has been shaped by concerns for professional legitimacy, cultural authority over sex and gender, and the creation of a market for information and therapy. Evolving from the rigorously empirical research of Kinsey, contemporary sexology is generally associated with biomedical laboratory investigations or psychotherapy. Cautious about the possibility of public censure or the restriction of public funding, research sexologists have been careful to present themselves as staid and dispassionate scientists engaged in ideologically neutral work. The book examines the social and political changes that have created an identity crisis within modern sexology as it has confronted formidable external challenges. In the cultural turbulence of the late 1960s, a group of sexologists, inspired by the human potential movement, introduced controversial new methods of clinical practice that involved nudity, bodywork, and sexually explicit films. At the same time, the emerging feminist and gay liberation movements rejected the conventional behavioral and gender role prescriptions privileged by biomedical experts in sexology and articulated the connection between personal and political freedom. Modern sexology now is rife with conflict. "As a field in which scientists, pornographers, feminists, transvestites, therapists, and others uneasily share the podium," Irvine comments, "sexology's recent history can be characterized as a turf war among constituents over the control of the definitions of sexuality and gender." Disorders of Desire documents how

sexology has failed to transcend factionalism and remains unable to contribute to contemporary sexual discourse. Irvine shows how its volatile debates over issues such as the G-Spot, the research of Shere Hite, childhood gender treatment centers, and AIDS represent fundamentally different constructions of human sexuality and individual freedom. Author note: Janice M. Irvine is a sociologist in the Community Health Program at Tufts University.

Battleground of Desire May 02 2023 Stearns (history, Carnegie Mellon University) explores the history of American self control and discusses the wide social implications of self control as a characteristic prescribed by our culture in different ways. He investigates issues that define American attitudes towards morality, sexuality, and disciplines of the body, covering the Victorian legacy through current norms. In comparing trends throughout cultural history, he points out that there has been no collapse of impulse control or moral demonstration between the eras, only a shift in form. Desire and Delight Sep 25 2022 "Augustine's Confessions is one of the most powerfully evocative autobiographies of the Christian West. It recounts the complex experiences through which this formative theologian came to renounce the compulsive sexual practice of his youth, reinvesting his energy and affection in a disciplined spirituality. The Confessions is explicitly about desire, longing, passion - physical and spiritual - constantly both, and becomes most evidently when Augustine most intended to distinguish spiritual from physical. It is an erotic text, preoccupied with bodies, pleasures, and pains. It narrates Augustine's desperate attempt to get, and to keep, the greatest source of pleasure. Even his conversion to Catholic Christianity is narrated as a seduction to continence, and the model of spirituality he articulated rooted intimately and profoundly on his sexual experience." "Desire and Delight explores the erotics of asceticism as described by Augustine, noticing the gendered foundation of his model of spiritual aspiration. Going beyond the tormented, self-conscious Augustine of conventional interpretations, we discover in this book a man impelled by the eros that defines human

as such: the pursuit up the scale of pleasures to the ultimate Pleasure  
pursuit is analyzed here in text, context, and subtext, with such intelle  
and emotional engagement that the Confessions becomes a "text of  
pleasure." --BOOK JACKET.Title Summary field provided by Blackwell
