romance, and a cautionary tale about the dangers of science, *Frankenstein* tells the story of committed science student Victor Frankenstein. Obsessed with discovering the cause of generation and life and bestowing animation upon lifeless matter, Frankenstein assembles a human being from stolen body parts but; upon bringing it to life, he recoils in horror at the creature's hideousness. Tormented by isolation and loneliness, the once-innocent creature turns to evil and unleashes a campaign of murderous revenge against his creator, Frankenstein. *Frankenstein*, an instant bestseller and an important ancestor of both the horror and science fiction genres, not only tells a terrifying story, but also raises profound, disturbing questions about the very nature of life and the place of humankind within the cosmos: What does it mean to be human? What responsibilities do we have to each other? How far can we go in tampering with Nature? In our age, filled with news of organ donation genetic engineering, and bio-terrorism, these questions are more relevant than ever. When Hiro's kindhearted brother, Tadashi, vanishes through a portal to save him, the boy genius is devastated. With new friends and Baymax 2.0 by his side, Hiro is determined to get to the bottom of everything...and he might end up saving the world on his way! When he finds himself in the grips of a criminal plot that threatens to destroy San Fransokyo, robotics prodigy Hiro Hamada joins forces with a reluctant team of first-time crime fighters on a mission to save the city. Shield Lee Mallorrough and Source Shintaro Karish are steadfast in their commitment to protect Westsea no matter what disaster--natural or man-made--may befall it. But before our heroes can discern why so many people are suddenly interested in gaining control of Westsea, Lee's family arrives with some startling news. Long before she was trained as a Shield, she was betrothed as part of an alliance with another merchant clan--and her "fiancé" is determined to see Lee fulfill her contract... Disillusioned businessman, John Lawrence Locke, finds himself summoned as a hero to another world, filled with monsters and magic! With his body reverted to the age of fifteen, the thirty-three-year-old's mind is filled with the possibility of battles and adventures, like the ones in his favorite video games. Unfortunately for him, life isn't also so convenient. Betrayed by the very people who summoned him, he's condemned as the False Hero and forced to flee for his life. Alone in an unfamiliar world and hunted by all of humanity, he takes on the alias of Lutz and uses his gaming knowledge to quickly adapt to the world's strangely game-like mechanics.
