Challenging multiple choice questions: We have seen several quiz books that have a poor selection of multiple choice questions, such as example below... What is the highest mountain in Turkey? A Mt. Whitney B Mt. Everest C Mt. Ararat D Mt. Cook Whilst this question is somewhat tricky in itself, the answers given allow most geographers to eliminate the 3 wrong answers quickly to come up with answer C. Instead of this approach, we have kept the quiz more like shown below to make this strategy of quizzing harder for the challenger... What is the highest mountain in Turkey? A Mt. Elbrus B Mt. Davamond C Mt. Ararat D Mt. Bazarduzu Although it may be easy for some seasoned geographers, this question, by the choices given is harder for the most part, and will hopefully trigger more conversation/thought before answering. Create Better Multiple-Choice Questions Dec 29 2022 From reviews of SINCE TOMORROW: "SINCE TOMORROW is the best post-apocalyptic novel I've read since Cormac McCarthy's THE ROAD" Jo Vonbargen "...a magnificent book that lays out an exquisitely formed vision of a broken world." A.F. Stewart "I could've been reading Faulkner or Hemingway, the writing was so powerful." Frederick Lee Brooke An old man rides a workhorse through the night, across mudslides, past stores abandoned for decades, past the rotted corpses of automobiles invisible under mounds of blackberry. Rain courses from his rabbit skin poncho. He carries a sword and a spear. He knows where to find the murderer. He will face him alone. "Since Tomorrow" is a novel of a world in the remaking. The old man, Frost, remembers the "good times". Those who live on his "farm" among collapsed warehouses and the foundations of vanished houses struggle to maintain human values. But when others in this makeshift world are driven only by greed and the need for power, all values must ultimately be replaced by the simple instinct for survival. In this full length novel Morgan Nyberg takes the reader to the West Coast of Canada, where the city of Vancouver has been transformed by climate change, pandemic, economic collapse and earthquake into "Town", a squalid, lawless place inhabited the desperate, the diseased and the dying. Taking advantage of this state of affairs is the formidable Langley, who grows poppies to produce "skag", a crude form of opium. Langley has amassed enough power to control a small private army. Now he is determined to acquire Frost's farm for himself. Recklessly opposing Langley is Frost's fearless but impulsive granddaughter, Noor. Like Russell Hoban's "Ridley Walker" or Cormac McCarthy's "The Road", "Since Tomorrow" demonstrates that there is room in the post-apocalyptic genre for exceptional writing. Morgan Nyberg tells nothing - he shows everything. In clear, sensuous prose free of commentary or explanation - prose as addictive as Langley's skag - he leads the reader toward that climactic night with Frost on his horse, and farther, to the threshold of a new, perhaps happier, era.

Examination Questions and Answers in Basic Anatomy and Physiology Feb 28 2023 This second edition provides 2400 multiple choice questions on human anatomy and physiology, and some physical science, separated into 40 categories. The answer to each question is accompanied by an explanation. Each category has an introduction to set the scene for the questions to come. However, not all possible information is provided within these Introductions, so an Anatomy and Physiology textbook is an indispensable aid to understanding the answers. The questions have been used in end-of-semester examinations for undergraduate anatomy and physiology courses and as such reflect the focus of these particular courses and are pitched at this level to challenge students that are beginning their training in anatomy and physiology. The question and answer combinations are intended for use by teachers, to select questions for their next examinations, and by students, when studying for an upcoming test. Students enrolled in the courses for which these questions were written include nursing, midwifery, paramedic, physiotherapy, occupational therapy, nutrition and dietetics,

health sciences, exercise science, and students taking an anatomy and physiology course as an elective.
