The Poetics of Colonization Jul 06 2021 Tales of archaic Greek city foundations continued to be told and retold long after the colonies themselves were settled. This book explores how the ancient Greeks constructed their memory of founding new cities overseas. Greek stories about colonizing Sicily or the Black Sea in the seventh century B.C.E. are no more transparent, no less culturally constructed than nineteenth-century British tales of empire in India or Africa; they are every bit as much about power, language, and cultural appropriation. This book brings anthropological and literary theory to bear on the narratives that later Greeks tell about founding colonies and the processes through which the colonized are assimilated into the familiar story lines, metaphors, and rituals of the colonizers. The distinctiveness and the universality of Greek colonial representations are explored through explicit comparison with later European narratives of new world settlement. Unique in its focus on issues of representation and colonial ideology, rather than the traditional historical approach, this book adds much to the study of the archaic colonization movement. Through new historicist readings, Carol Dougherty shows how, long after the Greek colonization movement itself was over, the colonial tale, embedded in important poetic genres and performed as part of significant civic occasions, enabled the Greeks to continue to colonize the past and to establish themselves as the imperial power in that cultural memory.

Being Colonized Mar 02 2021 What was it like to be colonized by foreigners? Highlighting a region in central Congo, in the center of sub-Saharan Africa, *Being Colonized* places Africans at the heart of the story. In a richly textured history that will appeal to general readers and students as well as to scholars, the distinguished historian Jan Vansina offers not just accounts of colonial administrators, missionaries, and

traders, but the varied voices of a colonized people. Vansina uncovers the history revealed in local news, customs, gossip, and even dreams, as related by African villagers through archival documents, material culture, and oral interviews. Vansina's case study of the colonial experience is the realm of Kuba, a kingdom in Congo about the size of New Jersey—and two-thirds the size of its colonial master, Belgium. The experience of its inhabitants is the story of colonialism, from its earliest manifestations to its tumultuous end. What happened in Kuba happened to varying degrees throughout Africa and other colonized regions: racism, economic exploitation, indirect rule, Christian conversion, modernization, disease and healing, and transformations in gender relations. The Kuba, like others, took their own active part in history, responding to the changes and calamities that colonization set in motion. Vansina follows the region's inhabitants from the late nineteenth century to the middle of the twentieth century, when a new elite emerged on the eve of Congo's dramatic passage to independence.

The Colonized Feb 01 2021 Untold Stories of Farmworkers in British Colonial Kenya. Wanjir's family and her community steer through the British invasion and occupation of Kenya. With a new economic system, the colonial government introduces taxes and laws alien to the indigenous people. This determines her place of birth. After an altercation with a taxman, her father realizes he needs to operate in the strange new economy not only to support his family but also to pay the white man's mandatory taxes. He leaves his wife and three small children in his native land of Nyeri and joins a caravan to go seek for work on British-owned farms in the Great Rift Valley. When he gets on his feet, he returns to fetch his family. To his chagrin, he finds his family dynamics changed, but he still bundles mother and children and returns to the farm. Then mayhem breaks out when Mau Mau freedom fighters wage a guerrilla warfare against the British colonizers. The colonial governor declares a state of emergency in the whole of Kenya. Wanjir, her family, and her community hunker down and adjust to colonialism as they steer their lives as farmworkers and the

colonized. This powerful book of untold farmworkers' lives in British colonial Kenya is the first of THE COLONIZED series. The book showcases true stories for those who like to know and those who seek justice?

Colonizing the Body Mar 22 2020 In this innovative analysis of medicine and disease in colonial India, David Arnold explores the vital role of the state in medical and public health activities, arguing that Western medicine became a critical battleground between the colonized and the colonizers. Focusing on three major epidemic diseases—smallpox, cholera, and plague—Arnold analyzes the impact of medical interventionism. He demonstrates that Western medicine as practiced in India was not simply transferred from West to East, but was also fashioned in response to local needs and Indian conditions. By emphasizing this colonial dimension of medicine, Arnold highlights the centrality of the body to political authority in British India and shows how medicine both influenced and articulated the intrinsic contradictions of colonial rule.

Go-betweens and the Colonization of Brazil Jun 05 2021 Doña Marina (La Malinche) ...Pocahontas ...Sacagawea—their names live on in historical memory because these women bridged the indigenous American and European worlds, opening the way for the cultural encounters, collisions, and fusions that shaped the social and even physical landscape of the modern Americas. But these famous individuals were only a few of the many thousands of people who, intentionally or otherwise, served as "go-betweens" as Europeans explored and colonized the New World. In this innovative history, Alida Metcalf thoroughly investigates the many roles played by go-betweens in the colonization of sixteenth-century Brazil. She finds that many individuals created physical links among Europe, Africa, and Brazil—explorers, traders, settlers, and slaves circulated goods, plants, animals, and diseases. Intercultural liaisons produced mixed-race children. At the cultural level, Jesuit priests and African slaves infused native Brazilian traditions with their own religious practices, while translators became influential go-betweens, negotiating the terms of

trade, interaction, and exchange. Most powerful of all, as Metcalf shows, were those go-betweens who interpreted or represented new lands and peoples through writings, maps, religion, and the oral tradition. Metcalf's convincing demonstration that colonization is always mediated by third parties has relevance far beyond the Brazilian case, even as it opens a revealing new window on the first century of Brazilian history.

Colonizer or Colonized Jul 18 2022 Colonizer or Colonized introduces two colonial stories into the heart of France's literary and cultural history. The first describes elite France's conflicted relationship to the Ancient World. As much as French intellectuals aligned themselves with the Greco-Romans as an "us," they also resented the Ancients as an imperial "them," haunted by the memory that both the Greeks and Romans had colonized their ancestors, the Gauls. This memory put the elite on the defensive—defending against the legacy of this colonized past and the fear that they were the barbarian other. The second story mirrored the first. Just as the Romans had colonized the Gauls, France would colonize the New World, becoming the "New Rome" by creating a "New France." Borrowing the Roman strategy, the French Church and State developed an assimilationist stance towards the Amerindian "barbarian." This policy provided a foundation for what would become the nation's most basic stance towards the other. However, this version of assimilation, unlike its subsequent ones, encouraged the colonized and the colonizer to engage in close forms of contact, such as mixed marriages and communities. This book weaves these two different stories together in a triangulated dynamic. It asks the Ancients to step aside to include the New World other into a larger narrative in which elite France carved out their nation's emerging cultural identity in relation to both the New World and the Ancient World.

Colonizing Language Nov 10 2021 With the outbreak of the Sino-Japanese War in 1894, Japan embarked on a policy of territorial expansion that would claim Taiwan and Korea, among others. Assimilation policies led to a significant body of literature written in Japanese by colonial writers by the 1930s. After its unconditional

surrender in 1945, Japan abruptly receded to a nation-state, establishing its present-day borders. Following Korea's liberation, Korean was labeled the national language of the Korean people, and Japanese-language texts were purged from the Korean literary canon. At the same time, these texts were also excluded from the Japanese literary canon, which was reconfigured along national, rather than imperial, borders. In *Colonizing Language*, Christina Yi investigates how linguistic nationalism and national identity intersect in the formation of modern literary canons through an examination of Japanese-language cultural production by Korean and Japanese writers from the 1930s through the 1950s, analyzing how key texts were produced, received, and circulated during the rise and fall of the Japanese empire. She considers a range of Japanese-language writings by Korean colonial subjects published in the 1930s and early 1940s and then traces how postwar reconstructions of ethnolinguistic nationality contributed to the creation of new literary canons in Japan and Korea, with a particular focus on writers from the Korean diasporic community in Japan. Drawing upon fiction, essays, film, literary criticism, and more, Yi challenges conventional understandings of national literature by showing how Japanese language ideology shaped colonial histories and the postcolonial present in East Asia. [Political Theories of Decolonization](#) May 24 2020 *Political Theories of Decolonization* provides an introduction to some of the seminal texts of postcolonial political theory. Many theorists have pointed out that the colonized subject was a divided subject. This book argues that the postcolonial state was a divided state. Providing readers access to texts that add to our understanding of contemporary political life and global political dynamics, it illuminates how many of the central questions of political theory such as land, religion, freedom, law, and sovereignty are imaginatively explored by postcolonial thinkers.

Indigenous Persistence in the Colonized Americas Apr 03 2021 This scholarly collection explores the method and theory of the archaeological study of indigenous persistence and long-term colonial

entanglement. Each contributor offers an examination of the complex ways that indigenous communities in the Americas have navigated the circumstances of colonial and postcolonial life, which in turn provides a clearer understanding of anthropological concepts of ethnogenesis and hybridity, survivance, persistence, and refusal. *Indigenous Persistence in the Colonized Americas* highlights the unique ability of historical anthropology to bring together various kinds of materials—including excavated objects, documents in archives, and print and oral histories—to provide more textured histories illuminated by the archaeological record. The work also extends the study of historical archaeology by tracing indigenous societies long after their initial entanglement with European settlers and colonial regimes. The contributors engage a geographic scope that spans Spanish, English, French, Dutch, and other models of colonization.

The Colonizer and the Colonized. Analysis of Shakespeare's "The tempest" Sep 20 2022 Seminar paper from the year 2006 in the subject English Language and Literature Studies - Literature, grade: 1,3, University of Hamburg, language: English, abstract: It is a fact that Shakespeare's plays are an essential part of the Elizabethan period and hence deal with topics characteristic of this time. This is also true of *The Tempest*, which was probably written in 1610 – 1611, for it is concerned with the theme of colonization and exploration of the New World, the newly discovered Americas. The Elizabethan period is known as the Age of Exploration. Thus, *The Tempest* not only deals with the effects of colonization and civilization on the natives but some critics also tend to read this play as a metaphor of colonialism, since every character is concerned with how he would govern the island if he was the ruler. However, *The Tempest* can be regarded as a play whose plot is completely original and also very personal. The critic Richard Dutton even claims that there is a "theory that Prospero in *The Tempest* represents Shakespeare himself". Critics have taken this play very seriously and have pointed out its complexity. Hence, Stanley Wells says that "The *Tempest* (...) is a supremely poetic drama (...) because it speaks (...) on many levels, universally relevant (...) and (...)

universally effective. Why is *The Tempest* regarded as so original and unique? Well, one might find an answer to this question by taking a closer look at its background, its sources, its structure and at its main characters. For this reason, I will deal with the sources of *The Tempest* in more detail in the following chapter. In a next step, the dramatic structure of the play will be analyzed. Since this play is mainly about colonizers and the colonized, it is also of vital importance to analyze the prominent character Caliban and the European characters' attitude to him, in this context. It will be argued that Caliban becomes a victim of colonization.

The Colonized Apostle Dec 19 2019 How did Roman imperial culture shape the environment in which Paul carried out his apostolate? How do the multiple legacies of modern colonialism and contemporary empire shape, illuminate, or obscure our readings of Paul's letters? In *The Colonized Apostle*, Christopher D. Stanley has gathered many of the foremost voices in postcolonial and empire-critical scholarship on Paul to provide a state-of-the-art guide to these questions. This latest addition to the *Paul in Critical Contexts* series includes essays introducing postcolonial criticism and applying its insights both to Paul's context in the Roman world and to the reevaluation of contemporary interpretation. Contributors include Susan Abraham, Jennifer Bird, Neil Elliott, L. Ann Jervis, Melanie Johnson-DeBaufre, Brigitte Kahl, Jae Won Lee, Tat-Siong Benny Liew, Davina C. Lopez, Joseph A. Marchal, Stephen D. Moore, Laura S. Nasrallah, Jeremy A. Punt, Robert P. Seesengood, and Gordon M. Zerbe.

English and the Discourses of Colonialism Oct 29 2020 *English and the Discourses of Colonialism* opens with the British departure from Hong Kong marking the end of British colonialism. Yet Alastair Pennycook argues that this dramatic exit masks the crucial issue that the traces left by colonialism run deep. This challenging and provocative book looks particularly at English, English language teaching, and colonialism. It reveals how the practice of colonialism permeated the cultures and discourses of both the colonial and colonized nations, the effects of which are still evident today.

Pennycook explores the extent to which English is, as commonly assumed, a language of neutrality and global communication, and to what extent it is, by contrast, a language laden with meanings and still weighed down with colonial discourses that have come to adhere to it. Travel writing, newspaper articles and popular books on English, are all referred to, as well as personal experiences and interviews with learners of English in India, Malaysia, China and Australia. Pennycook concludes by appealing to postcolonial writing, to create a politics of opposition and dislodge the discourses of colonialism from English.

The Colonizer's Discourse As It Emerges in Memmi's *The Colonizer and the Colonized* and in Bhabha's *Signs Taken for Wonders* Oct 09 2021 Essay from the year 2012 in the subject English - Literature, Works, grade: A, University of Malta, course: Postcolonial Criticism, language: English, abstract: The following essay deals with the discourse colonizer uses; based on Bhabha's "Signs Taken for Wonders" and Memmi's "The Colonizer and the Colonized."

Summary of Albert Memmi's *The Colonizer and the Colonized* Feb 25 2023 Please note: This is a companion version & not the original book. Sample Book Insights: #1 The economic motives of colonial enterprises are clear today. The cultural and moral mission of a colonizer, even in the beginning, is no longer tenable. Europeans in the colonies want to go home because their lives there are not as good as they were in their own countries. #2 The settler who has become rich during his time in the colony will not leave until his advantages have run out. He will continue to live there until his livelihood is threatened, at which point he will seriously consider returning to his own land. #3 The colonizer is in charge of the entire colonial system, from the laws that grant him exorbitant rights, to the systems that exploit the colonized. He cannot help but notice how everything is rigged in his favor, and he cannot avoid living in relation to the two sides of the scale. #4 A colonial is a European living in a colony who has no privileges. A colonizer is a European living in a colony who has privileges, and a colonialist is a European living in a colony who has both privileges and an attitude of superiority towards other colonists.

The Colonizer and the Colonized Jun 17 2022

The Archaeology of the Colonized Jan 12 2022 This book investigates the experience of the colonized in their landscape setting, and proposes an 'archaeology of taxation' to investigate the relationship between local community and central control.

African Perspectives on Colonialism May 04 2021 This history deals with the twenty-year period between 1880 and 1900, when virtually all of Africa was seized and occupied by the Imperial Powers of Europe. Eurocentric points of view have dominated the study of this era, but in this book, one of Africa's leading historians reinterprets the colonial experiences from the perspective of the colonized. The Johns Hopkins Symposia in Comparative History are occasional volumes sponsored by the Department of History at the Johns Hopkins University and the Johns Hopkins University Press comprising original essays by leading scholars in the United States and other countries. Each volume considers, from a comparative perspective, an important topic of current historical interest. The present volume is the fifteenth. Its preparation has been assisted by the James S. Schouler Lecture Fund.

Colonialism and the Object Mar 14 2022 Drawing together an international group of scholars from a variety of disciplinary and cultural backgrounds, Colonialism and the Object explores the impact of colonial contact with other cultures on the material culture of both the colonized and the imperial nation. The book includes intensive case-studies of objects from India, Pakistan, New Zealand, China and Africa, all of which were collected by, or exhibited in, the institutions of the British Empire, and key chapters address issues of radical identity across cultural barriers, and the hybrid styles of objects which can emerge when cultures meet. Colonialism and the Object is essential reading for all those interested in post-colonial theory, museum studies, material culture and design history.

The Colonizing Trick Oct 21 2022 An illuminating look at the concepts of race, nation, and equality in eighteenth-and nineteenth-century America, The idea that "all men are created equal" is as close to a universal tenet as exists in American history. In this hard-hitting book,

David Kazanjian interrogates this tenet, exploring transformative flash points in early America when the belief in equality came into contact with seemingly contrary ideas about race and nation. *The Colonizing Trick* depicts early America as a white settler colony in the process of becoming an empire--one deeply integrated with Euro-American political economy, imperial ventures in North America and Africa, and pan-American racial formations. Kazanjian traces tensions between universal equality and racial or national particularity through theoretically informed critical readings of a wide range of texts: the political writings of David Walker and Maria Stewart, the narratives of black mariners, economic treatises, the personal letters of Thomas Jefferson and Phillis Wheatley, Charles Brockden Brown's fiction, congressional tariff debates, international treaties, and popular novelettes about the U.S.-Mexico War and the Yucatan's Caste War. Kazanjian shows how emergent racial and national formations do not contradict universalist egalitarianism; rather, they rearticulate it, making equality at once restricted, formal, abstract, and materially embodied.

Colonizing Animals Aug 27 2020 Animals were vital to the British colonization of Myanmar. In this pathbreaking history of British imperialism in Myanmar from the early nineteenth century to 1942, Jonathan Saha argues that animals were impacted and transformed by colonial subjugation. By examining the writings of Burmese nationalists and the experiences of subaltern groups, he also shows how animals were mobilized by Burmese anticolonial activists in opposition to imperial rule. In demonstrating how animals - such as elephants, crocodiles, and rats - were important actors never fully under the control of humans, Saha uncovers a history of how British colonialism transformed ecologies and fostered new relationships with animals in Myanmar. *Colonizing Animals* introduces the reader to an innovative historical methodology for exploring interspecies relationships in the imperial past, using innovative concepts for studying interspecies empires that draw on postcolonial theory and critical animal studies.

Reverse Colonization Nov 29 2020 Reverse colonization narratives are stories like H. G. Wells's *War of the Worlds*, in which

technologically superior Martians invade and colonize England. They ask Western audiences to imagine what it's like to be the colonized rather than the colonizers. David Higgins argues that although some reverse colonization stories are thoughtful and provocative, reverse colonization fantasy has also led to the prevalence of a very dangerous kind of science fictional thinking in our current political culture. It has become popular among groups such as anti-feminists, white supremacists, and far-right reactionaries to appropriate a sense of righteous, anti-imperial victimhood—the sense that white men, in particular, are somehow colonized victims fighting an insurgent resistance against an oppressive establishment. Nothing could be timelier, as an armed far-right mob stormed the U.S. Capitol on January 6, 2021, in an effort to stop the presidential election from being “stolen from them.” Higgins shows that this reverse colonization stance depends upon a science fictional logic that achieved dominance within imperial fantasy during the 1960s and has continued to gain momentum ever since. By identifying with fantastic forms of victimhood, subjects who already enjoy social hegemony are able to justify economic inequality, expansions of police and military power, climatological devastation, new articulations of racism, and countless other forms of violence—all purportedly in the name of security, self-defense, and self-protection.

Decolonization and the Decolonized Aug 19 2022 Memmi examines the manifold causes of the failure of decolonization efforts throughout the world. As outspoken and controversial as ever, he initiates a much-needed discussion of the ex-colonized and refuses to idealize those who are too often painted as hapless victims.

Colonial exchanges Apr 15 2022 Recent scholarship in political thought has closely examined the relationship between European political ideas and colonialism, particularly the ways in which canonical thinkers supported or opposed colonial practices. But little attention has been given to the engagement of colonized political and intellectual actors with European ideas. The essays in this volume demonstrate that a full reckoning of colonialism's effects requires

attention to the ways in which colonized intellectuals reacted to, adopted, and transformed these ideas, and to the political projects that their reactions helped to shape. Across nine chapters, a mix of political theorists and intellectual historians grapple with specific thinkers and contexts to show in detail the unpredictable, complex and sometimes paradoxical impact of European ideas in an array of colonial settings.

Baltic Postcolonialism Jan 20 2020 Emerging from the ruins of the former Soviet Union, the literature of the Baltic states of Lithuania, Latvia and Estonia is analyzed from the fruitful perspective of postcolonialism, a theoretical approach whose application to former second-world countries is in its initial stages. This groundbreaking volume brings scholars working in the West together with those who were previously muffled behind the Iron Curtain. They gauge the impact of colonization on the culture of the Baltic states and demonstrate the relevance of concepts first elaborated by a wide range of critics from Frantz Fanon to Homi Bhabha. Examining literary texts and the situation of the intellectual reveals Baltic concerns with identity and integrity, the rewriting of previously blotted out or distorted history, and a search for meaning in societies struggling to establish their place in the world after decades - and perhaps millennia - of oppression. The volume dips into the late Tsarist period, then goes more deeply into Soviet deportations to the Gulag, while the main focus is on works of the turning-point in the late 1980s and 1990s. Postcolonial concepts like mimicry, subjectivity and the Other provide a new discourse that yields fresh insights into the colonized countries' culture and their poignant attempts to fight, to adapt and to survive. This book will be of interest to literary critics, Baltic scholars, historians and political scientists of Eastern Europe, linguists, anthropologists, psychologists, sociologists, working in the area of postcommunism and anyone interested in learning more about these ancient and vibrant cultures.

Fantasies of the Master Race Dec 11 2021 Chosen an "Outstanding Book on the Subject of Human Rights in the United States" by the Gustavus Myers Center for the Study of Human Rights. In this volume of incisive essays, Ward Churchill looks at representations of American

Indians in literature and film, delineating a history of cultural propaganda that has served to support the continued colonization of Native America. During each phase of the genocide of American Indians, the media has played a critical role in creating easily digestible stereotypes of Indians for popular consumption. Literature about Indians was first written and published in order to provoke and sanctify warfare against them. Later, the focus changed to enlisting public support for "civilizing the savages," stripping them of their culture and assimilating them into the dominant society. Now, in the final stages of cultural genocide, it is the appropriation and stereotyping of Native culture that establishes control over knowledge and truth. The primary means by which this is accomplished is through the powerful publishing and film industries. Whether they are the tragically doomed "noble savages" walking into the sunset of *Dances With Wolves* or Carlos Castaneda's *Don Juan*, the exotic mythical Indians constitute no threat to the established order. Literature and art crafted by the dominant culture are an insidious political force, disinforming people who might otherwise develop a clearer understanding of indigenous struggles for justice and freedom. This book is offered to counter that deception, and to move people to take action on issues confronting American Indians today.

The colonizer's discourse as it emerges in Memmi's "The Colonizer and the Colonized" and in Bhabha's "Signs Taken For Wonders" Dec 23 2022 Essay from the year 2012 in the subject English - Literature, Works, grade: A, University of Malta, course: Postcolonial Criticism, language: English, abstract: The following essay deals with the discourse colonizer uses; based on Bhabha's "Signs Taken for Wonders" and Memmi's "The Colonizer and the Colonized".

Colonizer and Colonized Sep 27 2020 Over the last two decades, the experiences of colonization and decolonization, once safely relegated

to the margins of what occupied students of history and literature, have shifted into the latter's center of attention, in the West as elsewhere. This attention does not restrict itself to the historical dimension of colonization and decolonization, but also focuses upon their impact upon the present, for both colonizers and colonized. The nearly fifty essays here gathered examine how literature, now and in the past, keeps and has kept alive the experiences - both individual and collective - of colonization and decolonization. The contributors to this volume hail from the four corners of the earth, East and West, North and South. The authors discussed range from international luminaries past and present such as Aphra Behn, Racine, Blaise Cendrars, Salman Rushdie, Graham Greene, Derek Walcott, Guimarães Rosa, J.M. Coetzee, André Brink, and Assia Djebar, to less known but certainly not lesser authors like Gioconda Belli, René Depestre, Amadou Koné, Elisa Chimenti, Sapho, Arthur Nortje, Es'kia Mphahlele, Mark Behr, Viktor Paskov, Evelyn Wilwert, and Leïla Houari. Issues addressed include the role of travel writing in forging images of foreign lands for domestic consumption, the reception and translation of Western classics in the East, the impact of contemporary Chinese cinema upon both native and Western audiences, and the use of Western generic novel conventions in modern Egyptian literature.

The Colonizer and the Colonized Apr 27 2023

The Colonizer and the Colonized. Translated by Howard Greenfeld
Dec 31 2020

A Different Shade of Colonialism Aug 07 2021 Annotation A history of the three-way colonial relationship among Britain, Egypt, and the Sudan in the late 19th and early 20th centuries. Unlike most books on colonialism, this one deals explicitly with race and slavery.

The colonisation of time Feb 13 2022 The Colonisation of Time is a highly original and long overdue examination of the ways that western-European and specifically British concepts and rituals of time were imposed on other cultures as a fundamental component of colonisation during the nineteenth century. Based on a wealth of primary sources, it explores the intimate relationship between the colonisation of time and

space in two British settler-colonies (Victoria, Australia and the Cape Colony, South Africa) and its instrumental role in the exportation of Christianity, capitalism, and modernity, thus adding new depth to our understanding of imperial power and of the ways in which it was exercised and limited. All those intrigued by the concept of time will find this book of interest, for it illustrates how western-European time's rise to a position of global dominance—from the clock to the seven-day week—is one of the most pervasive, enduring and taken-for-granted legacies of colonisation in today's world.

The Costs of Connection Apr 22 2020 Just about any social need is now met with an opportunity to "connect" through digital means. But this convenience is not free—it is purchased with vast amounts of personal data transferred through shadowy backchannels to corporations using it to generate profit. *The Costs of Connection* uncovers this process, this "data colonialism," and its designs for controlling our lives—our ways of knowing; our means of production; our political participation. Colonialism might seem like a thing of the past, but this book shows that the historic appropriation of land, bodies, and natural resources is mirrored today in this new era of pervasive datafication. Apps, platforms, and smart objects capture and translate our lives into data, and then extract information that is fed into capitalist enterprises and sold back to us. The authors argue that this development foreshadows the creation of a new social order emerging globally—and it must be challenged. Confronting the alarming degree of surveillance already tolerated, they offer a stirring call to decolonize the internet and emancipate our desire for connection.

Internal Colonization Jul 26 2020 This book gives a radically new reading of Russia's cultural history. Alexander Etkind traces how the Russian Empire conquered foreign territories and domesticated its own heartlands, thereby colonizing many peoples, Russians included. This vision of colonization as simultaneously internal and external, colonizing one's own people as well as others, is crucial for scholars of empire, colonialism and globalization. Starting with the fur trade, which shaped its enormous territory, and ending with Russia's collapse in

1917, Etkind explores serfdom, the peasant commune, and other institutions of internal colonization. His account brings out the formative role of foreign colonies in Russia, the self-colonizing discourse of Russian classical historiography, and the revolutionary leaders' illusory hopes for an alliance with the exotic, pacifist sectarians. Transcending the boundaries between history and literature, Etkind examines striking writings about Russia's imperial experience, from Defoe to Tolstoy and from Gogol to Conrad. This path-breaking book blends together historical, theoretical and literary analysis in a highly original way. It will be essential reading for students of Russian history and literature and for anyone interested in the literary and cultural aspects of colonization and its aftermath.

The Colonizer and the Colonized Nov 22 2022

Debunking the Myths of Colonization Sep 08 2021 This book examines the paradoxical nature of colonialism and its horrific impact on the psyche of the colonized. It probes Frantz Fanon's theories concerning the relationship between colonizers and the colonized. It attempts to apply these theories to modern Arabic literature.

Colonizer and Colonized Jan 24 2023 This classic study explores the psychological effects of colonialism on colonized and colonizers alike. A new foreword by renowned postcolonial scholar Homi K. Bhabha puts Memmi's work into context for contemporary readers.

"Confiscated by colonial police throughout the world since its 1957 publication, *The Colonizer and the Colonized* is an important document of our times, an invaluable warning for all future generations." -- Los Angeles Times "Widely influential." -- The New Yorker

Colonizer and the Colonized Mar 26 2023 Written in 1957, when North African independence movements were gaining momentum, Memmi depicts colonialism as a disease of the European but crucially he demonstrates that colonialism destroys both the colonizer and the

colonized. Memmiâ€™s penetrating insights into the colonial inheritance, and attempts to resist colonisation, remain as relevant today.

Constructing the Colonized Land Feb 19 2020 Despite the precipitous rise of East Asia as a center of architectural production since the Second World War, informed studies remain lacking. The lacuna is particularly conspicuous in terms of regional, cross-national studies, documenting the close ties and parallels between China, Taiwan, Japan and Korea during this period. Examining colonized cities in East Asia, this book brings together a range of different perspectives across both space and time. European, Chinese, Taiwanese, Korean and Japanese discourses are examined, with a range of complementary and conflicting views on the design of urban and architectural forms; the political, institutional, religious and economical contexts of urban planning; the role played by various media; and the influence of various geographical, social and anthropological research methods. The diversity and plurality of these perspectives in this book provides an entwined architectural, urban and social history of East Asia, which offers insights into the cultural systems and the historical and spatial meanings of these colonized cities. It concludes that the difficulties in the historical study of East Asia's colonial cities do not so much indicate cultural difference as the potentiality for multiple readings of the past toward the future.
