Cool Crafts with Glass Aug 19 2022 Once empty, clean, and without a label, most glass bottles and jars are pretty on their own. With a few extra touches such as paint or ribbon, glass items that are commonly recycled can be truly beautiful! Clear, simple instructions guide readers through several crafting projects that use old glass items in a new way. Each craft encourages readers to individualize their project, adding color and detail they choose and like. Additionally, this book reinforces themes of reducing waste through recycling and reusing.

Bottle Biology Jul 18 2022 Provides instructions for scientific investigations using plastic soda bottles and other recyclable materials which will allow students to model a rainforest, create a spider habitat, observe the lifecycle of a slime mold, explore an ecosystem, make Korean kimchee, and more.

[History of the Pet Bottle](#) Feb 01 2021 Dr. Tom Brady began his career at Owens-Illinois, Inc. in 1972, just as the carbonated soft drink companies began asking their suppliers to create and offer family-size carbonated beverage containers, which required an industry-wide conversion from glass and aluminum to plastic. As a fledging Senior Scientist, Tom, along with his O-I colleagues and along with other industry plastic package suppliers, accepted the challenge and, over just a 10-year period, created an entirely new industry to supply sustainable PET packaging to the beverage, food, and personal care product industries. When Owens-Illinois abandoned commercialization of the new and successful plastic PET container in 1985 because it was affecting O-I's glass container business, Tom left O-I and founded Plastic Technologies, Inc., with the initial goal of helping the Coca-Cola Company to self-manufacture its own PET plastic containers. Over its 35-year history, PTI has become a key technology development supplier and manufacturer of PET packaging for many of the major global brand owners, resin suppliers, and machine manufacturers, and PTI has also emerged as a leading industry source for training, manufacturing support, recycling technologies and laboratory testing. PTI is known for developing and commercializing sustainable plastic packaging products and strategies. Over its 35-year history, PTI has spawned 5 subsidiary recycling, manufacturing, and technology development companies, including Phoenix Technologies International, PTI-Europe, Preform Technologies, The Packaging Conference, and Guardian Medical USA, and PTI is planning for an exciting future by partnering with other leading industry recycling, manufacturing, and medical companies, here in the US and in Europe. "The History of the PET Bottle" fulfills Tom's long-time desire to capture the history of the PET container industry, including many important stories which have been contributed by former PET industry colleagues. Thanks to all of those colleagues!

Dr.

Tom Brady spent 50 years in the plastic packaging industry and participated in the development of many of today's standard plastic packaging technologies. In 1986, Tom founded Plastic Technologies, Inc. to continue the journey that he began at Owens-Illinois in 1972. In 2009, Tom took a dramatic career turn to become Interim Dean of The University of Toledo's College of Education, and today he remains committed to promoting and improving education, from PreK through Higher Education. His charitable and community service work includes serving as a board member for the Northwest Ohio Regional Growth Partnership, Toledo Port Authority, Lourdes University, Toledo Symphony, University of Toledo,

and the Ohio Governor's Third Frontier Commission, among others, and Tom and his wife, Betsy, continue to support entrepreneurial, teacher education, and engineering technology initiatives at the University of Toledo, Dartmouth College, and the University of Michigan. Tom earned his BS and MS degrees from Dartmouth and his Ph.D. from the University of Michigan. He holds six U.S. patents, received the Lifetime Achievement Award from the Plastics Industry in 2010, was inducted into the Plastics Industry Hall of Fame in 2012, and has received numerous other honors, including being named Entrepreneur of the Year in 1989, and Philanthropist of the Year with his wife, Betsy, in 2006.

A Plastic Bottle's Journey Apr 27 2023 Where did that plastic bottle in your hand come from? And where is it going next? A plastic bottle's journey is filled with bounces, bumps, and blasts. Pack your bags, and get ready to follow it!

Recycle bottle Feb 19 2020 Dalam kehidupan ini, kita acapkali mengonsumsi air minum kemasan botol plastik yang siap minum. Karena kepraktisannya pula, semakin banyak yang mengonsumsi dan semakin banyak pula botol plastik bekas yang terbuang. Padahal, botol plastik tersebut sulit untuk didaur ulang, sehingga botol-botol plastik bekas dapat menambah volume sampah di bumi ini. Berbagai bentuk dari botol plastik yang awalnya hanya berupa botol biasa dapat dikreasikan menjadi hiasan gantung, tempat lampu, frame foto, celengan lucu, tempat multifungsi, bunga artifisial hingga aksesoris serta pernak-pernik cantik. Suatu kebanggaan apabila kita dapat ikut serta menjaga bumi ini, dan pastinya semua kreasi dari botol plastik tersebut memiliki nilai jual yang tinggi. Tiara Aksa

Bottle Biology Jun 17 2022 Provides instructions for scientific investigations using plastic soda bottles and other recyclable materials which will allow students to model a rainforest, create a spider habitat, observe the lifecycle of a slime mold, explore an ecosystem, make Korean kimchee, and more.

A Plastic Bottle's Journey Apr 22 2020
