[Re-Energising Indian Intelligence](#) Aug 29 2020 This book covers a vast canvas historically as regards Indian Intelligence, and gives an adequate insight into the functioning of the important intelligence agencies of the world. The author has analysed the current functioning of Indian Intelligence agencies in great detail, their drawbacks in the structure and coordination and has come out with some useful suggestions.

A Long Dream of Home Oct 11 2021 Twenty-five years ago, in the winter of 1990, about four hundred thousand Pandits of Kashmir were forced to leave Kashmir, their homeland, to save their lives when militancy erupted there. Even today, they continue to live as 'internally displaced migrants' in their own country. While most Kashmiri Pandits have now carved a niche for themselves in different parts of India, several thousands are still languishing in migrant camps in and around Jammu. The stories of their struggles and plight have remained untold for years. The authors of the memoirs in this anthology belong to four generations. Those who were born and brought up in Kashmir, and fled while they were in their forties and fifties; those who lingered on in their homes in Kashmir despite the threat to their lives; those who got displaced in their teens; and those who were born in migrant camps in exile. These narratives explore several aspects of the history, cultural identity and existence of the Kashmiri Pandits. These are untold narratives about the persecution of Pandits in Kashmir during

the advent of militancy in 1989, the killings and kidnappings, loss of homeland, uprootedness, camp-life, struggle, survival, alienation and an ardent yearning to return to their land. These are stories about the re-discovery of their past, their ancestry, culture, and roots and moorings.

The Spy Chronicles Oct 31 2020 Pointing to the horizon where the sea and sky are joined, he says, 'It is only an illusion because they can't really meet, but isn't it beautiful, this union which isn't really there.' -- SAADAT HASAN MANTO Sometime in 2016, a series of dialogues took place which set out to find a meeting ground, even if only an illusion, between A.S. Dulat and Asad Durrani. One was a former chief of RAW, India's external intelligence agency, the other of ISI, its Pakistani counterpart. As they could not meet in their home countries, the conversations, guided by journalist Aditya Sinha, took place in cities like Istanbul, Bangkok and Kathmandu. On the table were subjects that have long haunted South Asia, flashpoints that take lives regularly. It was in all ways a deep dive into the politics of the subcontinent, as seen through the eyes of two spymasters. Among the subjects: Kashmir, and a missed opportunity for peace; Hafiz Saeed and 26/11; Kulbhushan Jadhav; surgical strikes; the deal for Osama bin Laden; how the US and Russia feature in the India-Pakistan relationship; and how terror undermines the two countries' attempts at talks. When the project was first mooted, General Durrani laughed and said nobody would believe it even if it was written as fiction. At a time of fraught relations, this unlikely dialogue between two former spy chiefs from opposite sides--a project that is the first of its kind--may well provide some answers.

[R.N. Kao](#) Nov 12 2021 Somewhere deep in the archives of the Nehru Memorial Museum and Library (NMML) in the heart of New Delhi lies a set of papers that researchers and historians interested in recording the history of Indian intelligence, would love to get their hands on. Alas, those documents-transcripts of tape-recorded conversations with RN Kao, the legendary spy chief-are not going to be available until 2025, according to instructions left by him, months before he passed away in 2002. So until those tapes and papers are made public, any biography of Rameshwar Nath Kao or 'Ramji' to friends, colleagues

and family would have to depend on personal memories of a vast array of individuals who knew him in different capacities and their interpretation of his personality and contribution.

Shakti: Real-Life Stories Celebrating Women Power May 26 2020 Shakti is an exciting anthology which showcases 14 crisp and wonderful stories about varied women whom the author met during his childhood, college days and his tenure in the IB. The author delves deep into the labyrinth of his sensitive chords and tries to encrypt the heroic stories of these women. All the stories are as varied as the women themselves and depict how these women fought their way out from the situations they encountered. From portraying the undying love of his friends from college days, to the harrowing account of a 1984 riot-victim, and a famous starlet's fight for her real identity, the author has woven a beautiful tapestry which throws abundant light on the foundation of all creationsâ€”Shakti. The author has even dared to write against his lecherous boss who impregnates his maid's daughter, and pushes the innocent into the debauch world of beggary. He has exposed certain political leaders who still indulge in the practice of 'bonded labour' in their fiefdoms and machinate organized killings. His biggest regret is that he could not do anything for her. The stories paint life as it is, rather than trying to be didactic. There is a strong element of projection of women's intrinsic power to fight against societal evils. Maloy Krishna Dhar, is a product of Calcutta University. After joining the Indian Police Service in 1964, he was seconded to the Intelligence Bureau, a platform that offered him in-depth perceptions and insight into Indian politics, insurgency, counterterrorism, counter intelligence and other ground realities of the nation. After retirement he took to freelance journalism and authored many literary works that include Open Secretsâ€”Indiaâ€™s Intelligence Unveiled, Fulcrum of Evilâ€”ISI, CIS, Al Qaeda Nexus, Operation Triple X, Black Thunder and We the People of the India: A story of Gandhian Democracy.

Software Defined Data Center with Red Hat Cloud and Open Source IT Operations Management Dec 13 2021 This IBM® Redbooks® publication delivers a Site Reliability Engineering (SRE) solution for cloud workloads that uses Red Hat OpenStack for Infrastructure as a Service (IaaS), Red Hat OpenShift for Platform as a Service (PaaS), and IT operations management that uses open source tools. Today, customers are no longer living in a world of licensed software. Curiosity increased the demand for investigating the Open Source world for Community Open Source and Enterprise grade applications. IBM as one of the contributors to the Open Source community is interested in helping the software be maintained and

supported. Having companies, such as IBM, support the evolution of Open Source software helps to keep the Open Source community striving for enterprise grade open source solutions. Lately, companies are working on deciphering how to take advantage of Enterprise and Community Open Source to implement in their enterprises. The business case for open source software is no longer a mystery and no surprise that most of the new positions in IT enterprises are related to open source projects. The ability of a large enterprise to manage this sort of implementations is to engage in a hypertrophied cooperation, where the ability to not only cooperate with teams and people outside your organization, but also to find new ways of working together and devise new ways to improve the software and its code. A goal for this publication is to help the client's journey into the open source space and implement a private Cloud Container-based architecture with the ability to manage the entire IT Service Management processes from the open source framework. This publication describes the architecture and implementation details of the solution. Although not every piece of this solution is documented here, this book does provide instructions for what was achieved incorporating open source technologies. Moreover, with this publication, the team shares their collaboration experiences working in a team of technologists, open source developers, Red Hat, and the open source community. This publication is for designers, developers, managers, and anyone who is considering starting a Cloud open source project, or users who started that journey. This book also can be a manual to guide the implementation of a technical viable architecture and help those enterprises participate in an open source project but have not done so before. The reader must be familiar with principles in programming and basic software engineering concepts, such as source code, compilers, and patches.

Train to India Dec 25 2022 FROM THE AUTHOR OF OPEN SECRETS, THE UNTOLD STORY OF THE HUMAN TRAGEDY IN BENGAL BEFORE, DURING AND AFTER PARTITION. Maloy and his mother board the Dacca- Sylhet Express from Bhairab in 1950. The young boy notices a tick mark in white chalk on the side of the carriage, a sign that worries him. The train enters the Anderson Bridge, and a blob, of fresh blood hits Maloy's face. Bodies roll down to the river... As a young boy, Maloy Krishna Dhar, made the perilous journey to India from the East Pakistan. Politics had taken a communal colour in this region-age-old bonds between Hindi and Muslim Bengalis had deteriorated. The situation was made worse by near famine conditions and the brutal suppression of unrest. Villages were torched, marauding attackers had a free hand, and trains became charnel houses on wheels. The partition in Bengal had its share of tragedy, of lives unmade and lost, but it is relatively less chronicled than events in Punjab. Maloy Krishna Dhar's Train to India is a graphic and moving account of that turbulent and unforgotten era of Bengal History.

Public Secrets Mar 04 2021 New York Times bestselling author Nora Roberts deftly blends romance and suspense in this compelling novel of a woman whose career, marriage, and very life are threatened by the truth about her own past. Emma McAvoy may have grown up in

the limelight, but some secrets are hidden in a darkness no light can reach. Now on the verge of a successful career, and having fallen in love with the man of her dreams, Emma is looking to the future. Yet it's the past that is about to catch up with her. For Emma, her childhood had been almost like a rags-to-riches fairy tale—until the tragic night that changed her family forever. But what Emma thinks she knows about that terrible night and the man she's about to marry is only half the truth. The other half is locked away in the last place she'd ever think to look: her own memories. It's a mystery a handsome and relentlessly driven homicide detective needs to solve in a case that's haunted him for years—and a secret someone will kill to keep. **The Illuminated** Sep 10 2021 'When the light shifts, you see the world differently.' A superbly nuanced work of fiction, Anindita Ghose's first novel The Illuminated revolves around two women: Shashi and Tara. After the sudden death of her celebrated husband, Shashi is alarmed to realize that overnight, she has lost her life's moorings. Meanwhile, their fiercely independent daughter Tara, a Sanskrit scholar, has been drawn into a passionate involvement with an older man, which threatens to consume her in ways she did not imagine possible. Amidst a rising tide of religious fundamentalism in India that is determined to put women in their place, Shashi and Tara attempt to look at themselves, and at each other, in a new light. But is it possible to emerge from an eclipse unscathed? An astonishing feat of the imagination, The Illuminated is as sophisticated in the quality of its prose as it is provocative in its thematic focus on questions of identity. A remarkable novel of ideas, it marks the arrival of a tremendous new literary talent.

[I Have Become The Tide](#) Jan 22 2020 Where is that land where water flows free? A powerful, beautifully imagined novel from Githa Hariharan asks when the tide will turn to make this dream real. Hundreds of years ago, Chikka, son of a cattle skinner, finds a home in Anandagrama, among people who believe everyone is equal; people whose prayer is inseparable from song and work, the river and the land, friendship and love. Chikka becomes Chikkiah the washerman who sings by his beloved river. But the Anandagrama movement against caste is torn apart, and its men and women slaughtered or forced to flee. In the present day, Professor Krishna makes a discovery. The saint-singer Kannadeva is none other than the son of Chikkiah. The poets and fighters of Anandagrama have been forgotten; Kannadeva has been whitewashed into a casteless 'Hindu saint'. Professor Krishna reconstructs many lives of resistance from his findings in a palm-leaf manuscript. But will the bigots, armed with bullets, bombs and hit-lists, let scholars and poets do what they must? Three Dalit students—Asha, Ravi and Satya—dream of a future that will let them and their families live with dignity, just like everyone else. From Chikkiah's story to theirs, a few things may have changed, but too much has remained the same. Three distinctive narratives intertwine past and present in compelling ways to raise an urgent voice against the cruelties of caste, and the destructive forces that

crush dissent. But they also celebrate the joy of resistance, the redemptive beauty of words, and the courage to be found in friendship and love. *I Have Become the Tide* is deeply political, but it never loses sight of humour, tenderness—or the human spirit.

Two-dimensional Materials for Photodetector Feb 03 2021 Atomic thin two-dimensional (2D) materials are the thinnest forms of materials to ever occur in nature and have the potential to dramatically alter and revolutionize our material world. Some of the unique properties of these materials including wide photoresponse wavelength, passivated surfaces, strong interaction with incident light, and high mobility have created tremendous interest in photodetector application. This book provides a comprehensive state-of-the-art knowledge about photodetector technology in the range visible to infrared region using various 2D materials including graphene, transition metal dichalcogenides, III-V semiconductor, and so on. It consists of 10 chapters contributed by a team of experts in this exciting field. We believe that this book will provide new opportunities and guidance for the development of next-generation 2D photodetector.

India's Biggest Cover-up Feb 15 2022 India's biggest coverup is an investigative insight into the Netaji mystery and its stranger than fiction subplots. Relying heavily on official records-bulk of them still security classified in violation of democratic norms-the book uncovers a systematic obstruction of justice by the Government of India. First for any book in India, the narrative has been augmented with the excerpts and images of still secret records. Archival material and information obtained under the freedom of information acts of India, the US and the UK has also been made use of.

Love Is Not a Word Jun 19 2022 Description- 'Love: more than pursuit, less than perfection, ' writes Debotri Dhar in her introduction to this book, and reminds us that love/desire is as much art as accident, and as full of light and clarity as it is of darkness and confusion. In the twelve essays that comprise this thoroughly engaging, eclectic collection, scholars, critics, storytellers and journalists examine some of the myriad aspects of this emotion-its 'complexities, in-betweenness'; its 'being and becoming'. In the opening essays, we get a historical and cultural perspective on 'traditional love' through discussions of 'swayamvara, arranged marriages, and desi romance'; ruminations on the immortal love of Radha and Krishna; and the story of a sexually desiring and desired courtesan or nagarvadhū. In the essays that follow, the politics of love is discussed and debated from a variety of angles: from the love jihad campaign against inter-religious marriage, to a critique of the savarna gaze in Indian cultural iconography and its meaning for inter-caste love; from India's legal battle to decriminalize same-sex love, to the subversive threat in single women's self-love. The book also includes intriguing and exquisite portrayals of love in literature-from Urdu shayari and the barahmasa (songs of longing for the twelve months of the year), to the city fictions of love through Rome, Sydney, Buenos Aires, Istanbul and Delhi. With essays by some of the most distinctive

writers of our time, this delightful, wide-ranging volume certainly suggests that love is not just a word.

Loki Takes Guard Dec 01 2020 Description Eleven-year-old Loki-Lokanayaki Shanmugam-is cricket crazy. She wants to play on the local cricket league team, The Temple Street Tankers. But they have a ridiculous 'boys only' rule that they aren't willing to change for a girl. And her parents seem to be too involved with her brother's studies to bother with Loki. So she takes matters into her own hands and begins a petition to fight for her right to play cricket. But very few people are willing to sign this petition-even her parents refuse. Nobody takes much notice till anonymous Twitter sensation @_poetic_paati takes up Loki's cause. Soon, Loki's petition goes viral and the entire nation is rooting for her. But will her parents, the team, and the guardians of tradition change their minds? And more importantly, if they do, will Loki be able to deliver the runs? Witty and fast-paced, *Loki Takes Guard* is as much a story about the joy of sports as it is about breaking outdated rules and standing up for oneself.

Predictive Intelligence Using Big Data and the Internet of Things Jan 14 2022 With the recent growth of big data and the internet of things (IoT), individuals can now upload, retrieve, store, and collect massive amounts of information to help drive decisions and optimize processes. Due to this, a new age of predictive computing is taking place, and data can now be harnessed to predict unknown occurrences or probabilities based on data collected in real time. *Predictive Intelligence Using Big Data and the Internet of Things* highlights state-of-the-art research on predictive intelligence using big data, the IoT, and related areas to ensure quality assurance and compatible IoT systems. Featuring coverage on predictive application scenarios to discuss these breakthroughs in real-world settings and various methods, frameworks, algorithms, and security concerns for predictive intelligence, this book is ideally designed for academicians, researchers, advanced-level students, and technology developers.

Soft Target Jun 26 2020 A provocative look at one of Canada's biggest tragedies On March 16, 2005, almost twenty years after one of the biggest mass murders in Canadian Aviation history, the Air-India Case concluded with a verdict that authors Zuhair Kashmeri and Brian McAndrew predicted sixteen years ago when *Soft Target* was first published: not guilty. In this second edition, the two offer a detailed

foreword that brings readers up-to-date with some startling new information surrounding the twin bombings on June 23, 1985 in the air over the Atlantic, and on the ground in Japan, which left 331 people dead. They offer key details from the trial of Ripudaman Singh Malik and Ajaib Singh Bagri that took place in a specially-built Vancouver courtroom, leads that were not followed up, and more details of India's intelligence service's clandestine interference in Canada. They explain how their own prediction that justice would not be found because of a botched investigation came true, and that only a public inquiry will offer closure to the families of the victims.

Almost Single Apr 17 2022 In a city where old is meeting new, daughters are surprising mothers, and love is breaking all the rules, this heartfelt and wickedly funny cross-cultural debut novel introduces a smart, irreverent young woman searching for independence and matrimony in a culture bound by tradition. Between elegant soirees and the occasional mortifying mishap, Aisha Bhatia's job as guest relations manager at New Delhi's five-star Grand Orchid Hotel is intermittently fabulous—she certainly knows her wines and cheeses. But despite a life filled with good friends and first-class travel accommodations, the fact is that not many twenty-nine-year-old women in India are single—as Aisha's mother never fails to remind her. Somewhere a clock is ticking, though as far as Aisha is concerned, it can be cheerfully drowned out by laughter over a champagne brunch. Yet when the handsomely chiseled Karan Verma arrives from New York, Aisha experiences an unexpected attitude adjustment. Karan is everything she's ever wanted...that is, if she actually knew what she wanted. Is it possible that she's about to find out? Savvy, sexy, and unforgettable, *Almost Single* tackles the loving, exasperating tug-of-war between mothers and daughters, traditional customs and contemporary romance—and what happens when a modern Indian woman is caught in the middle.

Open Secrets: The Explosive Memoirs of an Indian Intelligence Officer Mar 28 2023 The #1 Indian bestseller now available to Kindle readers worldwideWhen it was published in paperback in India in 2005, *Open Secrets* became an instant sensation. It became the #1 Non-Fiction bestseller, a position it held for many months and generated a firestorm of controversy. There were court cases, death threats against the author, intense debates in the media and a change in India's Official Secrets Act after the issues raised in the book caused uproar in Parliament. All of this is in hindsight not surprising as *Open Secrets* was the first of its kind- the first time a retired Indian Intelligence Bureau Officer penned his memoirs- detailing his thirty-year career and offering unprecedented insights into some of the pivotal moments of Indian history and a peek into the political machinations that underly them. More than an expose, *Open Secrets* was a heartfelt plea for more transparency and accountability in India's security and intelligence apparatus- to free them to serve and protect the people of India, and not just their political masters. That debate has special resonance today in the light of the growing popular movement demanding more transparency and less corruption in Indian public life. *Open Secrets* is regarded as a seminal work for its fearless

exposure of the Indian political system and its insightful detailing of the course of modern Indian history's turning points. ABOUT THE AUTHORMaloy Krishna Dhar began life as a journalist and a teacher, but ended up spending more than thirty years as an officer in India's Intelligence Bureau, retiring as its Joint Director. During his highly decorated career, he handled the sensitive Pakistan and Counter-terror desks, when he got a first-hand exposure to fighting the specter of Islamic terror that many Western readers were to remain blissfully unaware of till the tragic events of 9/11. After his retirement, he went back to his original love, and became a bestselling author and a recognized and highly respected authority on security matters. He passed away in May 2012, and his son, Amazon.com bestselling author Mainak Dhar, is now bringing his work to readers worldwide. We the People of India Oct 23 2022 A Gandhi is killed, a Bose is forgotten and a Bhagat Singh no more pricks the conscience of the people who lead the country. This is the story of a nation that boasts of being the largest democracy. The novel undertakes tortuous journeys through the political minefield and discovers that moneybags, muscle power and criminal fringes have hijacked Indian democracy. Satya Sarthi is a psephologist and wants to bring about a change in the system. He tries to catapult his simple but sharp businessman friend Dharmi into the top corridors of politics. His aim is to dethrone the ruling family which is corrupt and manipulative. Dharmi's hesitant metamorphosis from a businessman into a naïve politician and finally into a pucca politician is full of pathos. Does he succeed in dethroning the family? Does he end up changing the system? Maloy Krishna Dhar captures the intrigues that are played in power politics in the name of We the people & We the People of India The Story of Gangland Democracy is a reminder to Generations Next that they have to fulfill unfulfilled dreams of the savants of the nation.

Mission Feb 21 2020 "MISSION: PAKISTAN" is not just another spy thriller. Written by someone with over three decades of experience in counter-intelligence and counter-terrorism, it offers unprecedented insights into this shadowy world as it relates to the Indian subcontinent. At the same time, it is the story of tender and cruel social and geopolitical values that have been woven around the life and times of an Indian intelligence agent. Based loosely on real historical events and people, "Mission: Pakistan" takes the reader back to the tumultuous decade from the mid sixties to the early seventies, when India and Pakistan fought two wars within six years. "Mission: Pakistan" brings to focus not only the nature of this largely unseen intelligence war that takes place in the shadows but also the impact the underlying fault lines and internal security gangrene have on those affected.

Tohellwithyou Mitro Sep 22 2022 Krishna Sobti's lively, unapologetic portrayal of a married woman who brooks no limits to her sexuality is as compelling, pertinent and provocative today as when it first shook the Hindi literary world in 1966. Katha presents another masterpiece from one of the most spirited writers of our times. Mitro Marjani was not a writer's story ... I was amazed at the surprises Mitro gave me at every turn.
