Morning Star Nov 16 2021 #1 NEW YORK TIMES BESTSELLER • Red Rising thrilled readers and announced the presence of a talented new author. Golden Son changed the game and took the story of Darrow to the next level. Now comes the exhilarating next chapter in the Red Rising Saga: *Morning Star*. ITW THRILLER AWARD FINALIST • “[Brown’s] achievement is in creating an uncomfortably familiar world of flaw, fear, and promise.”—Entertainment Weekly Darrow would have lived in peace, but his enemies brought him war. The Gold overlords demanded his obedience, hanged his wife, and enslaved his people. But Darrow is determined to fight back. Risking everything to transform himself and breach Gold society, Darrow has battled to survive the cutthroat rivalries that breed Society’s mightiest warriors, climbed the ranks, and waited patiently to unleash the revolution that will tear the hierarchy apart from within. Finally, the time has come. But devotion to honor and hunger for vengeance run deep on both sides. Darrow and his comrades-in-arms face powerful enemies without scruple or mercy. Among them are some Darrow once considered friends. To win, Darrow will need to inspire those shackled in darkness to break their chains, unmake the world their cruel masters have built, and claim a destiny too long denied—and too glorious to surrender. Praise for *Morning Star* “There is no one writing today who does shameless, Michael Bay–style action set pieces the way Brown does. The battle scenes are kinetic, bloody, breathless, crazy. Not only are other hostile survivors headed there, but South Georgia Island is unable to support permanent habitation. Kremlin Rising Sep 26 2022 In the tradition of Hedrick Smith's The Russians, Robert G. Kaiser's Russia: The People and the Power, and David Remnick's Lenin's Tomb comes an eloquent and eye-opening chronicle of Vladimir Putin's Russia, from this generation's leading Moscow correspondents. With the 1991 collapse of the Soviet Union, Russia launched itself on a fitful transition to Western-style democracy. But a decade later, Boris Yeltsin's handpicked successor, Vladimir Putin, a childhood hooligan turned KGB officer who rose from nowhere determined to restore the order of the Soviet past, resolved to bring an end to the revolution. Kremlin Rising goes behind the scenes of contemporary Russia to reveal the culmination of Project Putin, the secret plot to reconsolidate power in the Kremlin. During their four years as Moscow bureau chiefs for The Washington Post, Peter Baker and Susan

Glasser witnessed firsthand the methodical campaign to reverse the post-Soviet revolution and transform Russia back into an authoritarian state. Their gripping narrative moves from the unlikely rise of Putin through the key moments of his tenure that re-centralized power into his hands, from his decision to take over Russia's only independent television network to the Moscow theater siege of 2002 to the "managed democracy" elections of 2003 and 2004 to the horrific slaughter of Beslan's schoolchildren in 2004, recounting a four-year period that has changed the direction of modern Russia. But the authors also go beyond the politics to draw a moving and vivid portrait of the Russian people they encountered -- both those who have prospered and those barely surviving -- and show how the political flux has shaped individual lives. Opening a window to a country on the brink, where behind the gleaming new shopping malls all things Soviet are chic again and even high school students wonder if Lenin was right after all, *Kremlin Rising* features the personal stories of Russians at all levels of society, including frightened army deserters, an imprisoned oil billionaire, Chechen villagers, a trendy Moscow restaurant king, a reluctant underwear salesman, and anguished AIDS patients in Siberia. With shrewd reporting and unprecedented access to Putin's insiders, *Kremlin Rising* offers both unsettling new revelations about Russia's leader and a compelling inside look at life in the land that he is building. As the first major book on Russia in years, it is an extraordinary contribution to our understanding of the country and promises to shape the debate about Russia, its uncertain future, and its relationship with the United States.

They may have managed to win a major battle against the powerful enemy determined to destroy civilization as we

know it. But the war continues, with Alex and Sam embarking on a desperate journey to save mankind, even as their friendship blossoms into something much more. The roadmap for their journey lies in a mysterious book, the language of which has never been deciphered, until Alex finds himself able to translate the words that may hold the keys to saving the future. Toward that end, Alex's and Sam's quest spirits them away to a myriad of locations around the world, each of which holds another piece of the puzzle that can defeat the alien invaders. But an ageless foe, long the guardian of the secrets his race has left behind on Earth, arises to stop them at all costs. At his disposal is a deadly and merciless army that has been awaiting this very war, an army as unstoppable as it is relentless. Over the ruins of the lost Mayan city of El Mirador, a blood moon is about to rise, triggering the end of mankind unless Alex and Sam can prevail in a struggle that will determine the fate of the planet. As forces both ancient and modern converge, as painful choices must be made and sacrifices accepted, two young heroes will rise again to stand as the final line of defense to preserve their world and their love. PC Worlds Feb 05 2021 This provocative work offers an anthropological analysis of the phenomenon of political correctness, both as a general phenomenon of communication, in which associations in space and time take precedence over the content of what is communicated, and at specific critical historical conjunctures at which new elites attempt to redefine social reality. Focusing on the crises over the last thirty years of immigration and multiculturalist politics in Sweden, the book examines cases, some in which the author was himself involved, but also comparative material from other countries.

The End of Men Nov 04 2020 Essential reading for our times, as women are pulling together to demand their rights— A landmark portrait of women, men, and power in a transformed world. “Anchored by data and aromatized by anecdotes, [Rosin] concludes that women are gaining the upper hand.” –The Washington Post Men have been the dominant sex since, well, the dawn of mankind. But Hanna Rosin was the first to notice that this long-held truth is, astonishingly, no longer true. Today, by almost every measure, women are no longer gaining on men: They have pulled decisively ahead. And “the end of men”—the title of Rosin’s Atlantic cover story on the subject—has entered the lexicon as dramatically as Betty Friedan’s “feminine mystique,” Simone de Beauvoir’s “second sex,” Susan Faludi’s “backlash,” and Naomi Wolf’s “beauty myth” once did. In this landmark book, Rosin reveals how our current state of affairs is radically shifting the power dynamics between men and women at every level of society, with profound implications for marriage, sex, children, work, and more. With wide-ranging curiosity and insight unhampered by assumptions or ideology, Rosin shows how the radically different ways men and women today earn, learn, spend, couple up—even kill—has turned the big picture upside down. And in The End of Men she helps us see how, regardless of gender, we can adapt to the new reality and channel it for a better future.

The Rising Sun Sep 02 2020 "[The Rising Sun] is quite possibly the most readable, yet informative account of the Pacific war."—Chicago Sun-Times This Pulitzer Prize–winning history of World War II chronicles the dramatic rise and fall of the Japanese empire, from the invasion of Manchuria and China to the atomic bombing of Hiroshima and Nagasaki. Told from the Japanese perspective, *The Rising Sun* is, in the author's words, "a factual saga of people caught up in the flood of the most overwhelming war of mankind, told as it happened—muddled, ennobling, disgraceful, frustrating, full of paradox." In weaving together the historical facts and human drama leading up to and culminating in the war in the Pacific, Toland crafts a riveting and unbiased narrative history. In his Foreword, Toland says that if we are to draw any conclusion from *The Rising Sun*, it is "that there are no simple lessons in history, that it is human nature that repeats itself, not history." At the End of the Journey Mar 01 2023 A NEW NOVEL IN JOHN RINGO'S BEST-SELLING BLACK TIDE RISING SERIES BY NEBULA- AND DRAGON AWARD-NOMINATED AUTHOR CHARLES E. GANNON It was supposed to be fun. Six teenagers and their British captain aboard the ketch *Crosscurrent Voyager*, headed on a senior year summer cruise to excitement and adventure. Then the world as they knew it ended. A plague spread throughout the globe, killing millions and turning the survivors into cannibalistic rage monsters—zombies, in so many words. Only by putting aside their differences were the young crew able to survive. Now, they seek others like them, those fortunate souls who have made it through the zombie apocalypse. After all, maybe it's not the end of the world so long as GPS can help survivors navigate deadly terrain, to link up, and maybe—just maybe—ensure the continuation of the human race. But the Earth’s GPS systems are failing. It falls to those aboard the *Crosscurrent Voyager* to keep the unthinkable from happening. In order to do so, they must traverse dangerous seas to a European Space Agency complex in French Guiana. And thousands of infected stand in the way. If they succeed, humankind

has a chance of rebuilding. If they fail, humanity may well be at the end of its journey. About Charles E. Gannon: “The plot is intriguing and then some. Well-developed and self-consistent; intelligent readers are going to like it.”—Jerry Pournelle “Chuck Gannon writes the kind of science fiction we all grew up on: rousing, mind-expanding, pulse-pounding sagas of spaceships and aliens. He’s a terrific writer, and we’re lucky to have him.”—Robert J. Sawyer “[A] strong [writer of] . . . military SF . . . [much] action going on in his work, with a lot of physics behind it. There is a real sense of the urgency of war and the sacrifices it demands.”—Locus About the Black Tide Rising series: “Not only has Ringo found a mostly unexplored corner of the zombie landscape, he’s using the zombie frame to tackle a broader theme: the collapse and rebirth of civilization. The zombie scenes are exciting, sure, but it’s the human story that keeps us involved. A fine series.”—Booklist “Ringo combines humor and horror in this strong series debut, the thinking reader’s zombie novel.”—Publishers Weekly on *Under a Graveyard Sky* About the work of Charles E. Gannon: *Caine’s Mutiny*: “This is military science fiction the way it’s supposed to be written. . . . All in all, a highly satisfying tale of the Terran Republic that moves the story forward and sets us up for the next chapter, which promises to be interesting at worst and explosive at best.”—SFcrowsnest *Raising Caine*: “Raising Caine unveils a lot of thought-provoking ideas but ultimately this is a space opera adventure. There are space battles, daring emergency landings, desperate quests, hand-to-hand combat, and double-and-triple crosses. It’s an engrossing read. You owe it to yourself to read the two previous books in order. Then enjoy *Raising Caine*. It’s an intergalactic thrill-ride.”—Fantasy and Science Fiction Book and Audiobook Reviews “This is science-fiction adventure on a grand scale.”—Kirkus “Gannon’s harrowing . . . military space opera (following *Trial by Fire*) builds well on his established setting . . . Gannon’s signature attention to developing realistic alien worlds makes this installment satisfying.”—Publishers Weekly “[A]n incredibly active book . . . as our protagonists are confronted by the beautiful, terrible, and sometimes lethal variety of the universe and its inhabitants. . . . a whole mess of fun . . . that manages to be scientifically accurate while refraining from excessive wonkiness. Those who value meticulous world-building . . . will certainly have their needs met.”—BN Sci-Fi and Fantasy Blog *Nebula-nominated Trial by Fire*: “I seriously enjoyed *Trial by Fire*. This one’s a tidal wave—can’t put it down. An excellent book.”—Jack McDevitt “Gannon’s whiz-bang second *Tales of the Terran Republic* interstellar adventure delivers on the promise

of the first (Fire with Fire). . . . The charm of Caine's harrowing adventure lies in Gannon's attention to detail, which keeps the layers of political intrigue and military action from getting too dense. The dozens of key characters, multiple theaters of operations, and various alien cultures all receive the appropriate amount of attention. The satisfying resolution is enhanced by the promise of more excitement to come in this fascinating far-future universe.”—Publishers Weekly, starred review “[D]efinitely one to appeal to the adventure fans. Riordan is a smart hero, up against enormous obstacles and surrounded by enemies. Author Gannon does a good job of managing action and tension to keep the story moving, and the details of the worlds Riordan visits are interesting in their own right.”—Analog “[O]ffers the type of hard science-fiction those familiar with the John Campbell era of Analog Science Fiction will remember. Gannon throws his readers into an action-packed adventure. A sequel to Fire With Fire, it is a nonstop tale filled with military science-fiction action.”—The Galveston County Daily News Compton Crook Award winner for best first novel, *Fire with Fire*: “Chuck Gannon is one of those marvelous finds—someone as comfortable with characters as he is with technology, and equally adept at providing those characters with problems to solve. Imaginative, fun, and not afraid to step on the occasional toe or gore the occasional sacred cow, his stories do not disappoint.”—David Weber “If we meet strong aliens out there, will we suffer the fate of the Aztecs and Incas, or find the agility to survive? Gannon fizzles with ideas about the dangerous politics of first contact.”—David Brin “[T]he intersecting plot threads, action and well-conceived science kept those pages turning.”—SFcrowsnest Starfire series hit *Extremis*, coauthored by Charles E. Gannon: “Vivid . . . Battle sequences mingle with thought-provoking exegesis . . . ”—Publishers Weekly “It’s a grand, fun series of battles and campaigns, worthy of anything Dale Brown or Larry Bond ever wrote.”—Analog

Power Of Ideas, The: The Rising Influence Of Thinkers And Think Tanks In China Oct 04 2020 China's momentous socioeconomic transformation is not taking place in an intellectual vacuum: Chinese scholars and public intellectuals are actively engaged in fervent discussions about the country's domestic and foreign policies, demographic constraints, and ever-growing integration into the world community. This book focuses on China's major think tanks where policies are initiated, and on a few prominent thinkers who influence the way in which elites and the general public understand and deal with the various issues confronting the country. The book examines

a number of factors contributing to the rapid rise of Chinese think tanks in the reform era. These include the leadership's call for "scientific decision-making," the need for specialized expertise in economics and finance as China becomes an economic powerhouse, the demand for opinion leaders in the wake of a telecommunication revolution driven by social media, the accumulation of human and financial capital, and the increasing utility of the "revolving door" nature of think tanks. It has been widely noted that think tanks and policy advisors have played an important role in influencing the strategic thinking of the top leadership, including the formation of ideas such as the "Three Represents," "China's peaceful rise," "One Belt, One Road," and the founding of the Asian Infrastructure Investment Bank (AIIB). In 2014, President Xi Jinping made think tank development a national strategy, and he claimed that "building a new type of think tank with Chinese characteristics is an important and pressing mission." Though the media outside China has often reported on this important development, it has all but escaped rigorous scholarly scrutiny. This book will categorize Chinese think tanks by their various forms, such as government agencies, university-based think tanks, private think tanks, business research centers or consultancies, and civil society groups. It will not only analyze the problems and challenges in China's think tank development, but also reveal the power of ideas.
