Carbon Tax for the United States, Gilbert E. Metcalf "Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as vol. 26, no. 7, supplement. Excerpt from The Papers of Captain Rufus Lincoln of Wareham, Mass: Compiled From the Original Records The pages are given in his own words and style, without change, except for an occasional explanatory note and the supplying Of missing data from authentic sources, to complete the story or article. AS will be noted, the papers consist of a number of memorandum books or dia ries, nearly all home-made, letters from some of his old soldier friends, Company Reports, and odd memoranda. Several of the books were written while he was a prisoner of war on parole at Flatlands, Long Island, some at New Windsor (newburgh), N. Y., while in camp, and other entries made after his return home. Of these papers, the following have appeared in print: The List of Prisoners on Long Island was published in a different form, in the Spirit of September, 1899, and the American Magazine for November, 1896, published the Celebration of the Birth of the Dauphin Of France. Rufus Lincoln filed claims against the Government for his pay and for money advanced for the company he raised and equipped. With these claims were many valuable papers, among them -his discharge, all of which were destroyed when the British burned Washington in 1814. Evangelical leaders such as Jonathan Edwards called for rulers to become spiritual as well as political leaders who would renew the people's covenant with God. The prosperous merchant Jonathan Belcher (1682-1757) self-consciously strove to become such a leader, an American Nehemiah. As governor of three royal colonies and early patron of the College of New Jersey (later Princeton University), Belcher became an important but controversial figure in colonial America. In this first biography of the colonial governor, Michael C. Batinski depicts a man unusually riddled with contradictions. While governor of Massachusetts, Belcher deftly maneuvered longstanding rivals toward a political settlement; yet as chief executive of New Hampshire, he plunged into bitter factional disputes that destroyed his administration. The quintessential Puritan, Belcher learned to thrive in London's cosmopolitan world and in the whiggish realm of the marketplace. He was at once the courtier and the country patriot. An insightful blend of social and political history, this biography demands that Belcher be recognized as the embodiment of the Nehemiah, perhaps as important in his own realm as Cotton Mather was in religious circles. Grappling with the contradictions of Belcher's actions, the author explains much about the complexities of the world in which Belcher lived and wielded influence. "The Paper Age" is the phrase coined by Thomas Carlyle in 1837 to describe the monetary and literary inflation of the French Revolution—an age of mass-produced "Bank-paper" and "Book-paper." Carlyle's phrase is suggestive because it points to the particular

substance—paper—that provides the basis for reflection on the mass media in much popular fiction appearing around the time of his historical essay. Rather than becoming a metaphor, however, paper in some of this fiction seems to display the more complex and elusive character of what Walter Benjamin evocatively calls "the decline of the aura." The critical perspective elaborated by Benjamin serves as the point of departure for the readings of paper proposed in Paperwork. Kevin McLaughlin argues for a literary-critical approach to the impact of the mass media on literature through a series of detailed interpretations of paper in fiction by Poe, Stevenson, Melville, Dickens, and Hardy. In this fiction, he argues, paper dramatizes the "withdrawal," as Benjamin puts it, of the "here and now" of the traditional work of art into the dispersing or distracting movement of the mass media. Paperwork seeks to challenge traditional concepts of medium and message that continue to inform studies of print culture and the mass media especially in the wake of industrialized production in the early nineteenth century. It breaks new ground in the exploration of the difference between mass culture and literature and will appeal to cultural historians and literary critics alike.
