Wave Action on Maritime Structures Mar 29 2020

High Line Nudes Dec 27 2019 From the foreword: "One of the High Line's powers is its ability to evoke time, to remind us of the changes we've experienced during our own lives, to bring forth echoes of the past, and to make us guess what life might be like years from now. I love the photos on these pages, because they have that power, too." --Joshua David, Co-Founder of the Friends of the High Line. Ten Avenues Press, in association with Friends of the High Line, announce the publication of High Line Nudes. In 2006, photographer Kevin McDermott took three of his friends up on the abandoned railroad tracks that would become New York City's High Line park to shoot a series of nudes. As McDermott states in his introduction, "at the time I took these photos, what I sought from its beauty was its sense of isolation, being alone, surrounded by nature in the middle of this metropolis." A decade later, this location is now one of the most visited tourist destinations in NYC and one of the largest real estate developments in the world. High Line Nudes captures a seemingly impossible, but beautiful moment in the history of the West Side Rail Yards, Chelsea and an ever changing New York City. The cloth hardcover book is beautifully printed in color and rich black and white duotone images.

How to Teach a New Dog Old Tricks May 12 2021 Voted the #1 BEST BOOK (1999) by the Association of Pet Dog Trainers - the largest and most influential worldwide association of professional pet dog trainers. Fun training with toys, treats, lures, and rewards. Easy, fun-loving, dog-friendly methods for teaching basic manners off-leash, and for temperament modification and behavior problem troubleshooting. Written from the dog's point of view and emphasizing natural motivational methods to teach your dog to want to do what you want him to do! "How To Teach A New Dog Old Tricks is the best book by dog training's leading genius. The most relevant, important piece ever written on the subject of dog behavior and training. Some fields are lucky enough to be granted a giant: a figure whose contributions inspire awe and are unsurpassable. Ian Dunbar is that in dog behavior. There is no single person on the face of the planet to whom dog trainers and owners (not to mention dogs) owe more." Jean Donaldson (author of The Culture Clash)

The Eat Fat, Get Thin Cookbook Mar 22 2022 The companion cookbook to Dr. Hyman's revolutionary Eat

Fat, Get Thin, with more than 175 delicious, nutritious, heart- and waist-friendly recipes. Dr. Hyman's Eat Fat, Get Thin radically changed the way we view dietary fat, and proved that the key to losing weight and keeping it off is to eat ample amounts of good fats. Now, Dr. Hyman shares more than 175 mouthwatering recipes to help you incorporate these good fats into your diet and continue on your path to wellness. With easy-to-prepare recipes for every meal--featuring nuts, coconut oil, avocados, and lots of other superfoods you thought were "off limits"--you can achieve fast and sustained weight loss. Your health is a life-long journey, and THE EAT FAT, GET THIN COOKBOOK helps make that journey both do-able and delicious. *The Existentialist's Survival Guide* Sep 03 2020 "When it comes to living, there's no getting out alive. But books can help us survive, so to speak, by passing on what is most important about being human before we perish. In The Existentialist's Survival Guide, Marino has produced an honest and moving book of self-help for readers generally disposed to loathe the genre." --The Wall Street Journal Sophisticated self-help for the 21st century--when every crisis feels like an existential crisis Soren Kierkegaard, Frederick Nietzsche, Jean-Paul Sartre, and other towering figures of existentialism grasped that human beings are, at heart, moody creatures, susceptible to an array of psychological setbacks, crises of faith, flights of fancy, and other emotional ups and downs. Rather than understanding moods--good and bad alike--as afflictions to be treated with pharmaceuticals, this swashbuckling group of thinkers generally known as existentialists believed that such feelings not only offer enduring lessons about living a life of integrity, but also help us discern an inner spark that can inspire spiritual development and personal transformation. To listen to Kierkegaard and company, how we grapple with these feelings shapes who we are, how we act, and, ultimately, the kind of lives we lead. In The Existentialist's Survival Guide, Gordon Marino, director of the Hong Kierkegaard Library at St. Olaf College and boxing correspondent for The Wall Street Journal, recasts the practical takeaways existentialism offers for the twenty-first century. From negotiating angst, depression, despair, and death to practicing faith, morality, and love, Marino dispenses wisdom on how to face existence head-on while keeping our hearts intact, especially when the universe feels like it's working against us and nothing seems to matter. What emerges are life-altering and, in some cases, lifesaving epiphanies--existential prescriptions for living with integrity, courage, and authenticity in an increasingly chaotic, uncertain, and inauthentic age.

And Yet... Mar 10 2021 "This collection of essays brings together some of the finest pieces Hitchens published over the last two decades for the first time in one book, addressing with characteristic wit and erudition the subjects he is best known for, including: the case against God, faith and religious observance; the case for intervention in Iraq; indictments of towering political figures like Bill and Hillary Clinton, Tony Blair, and Henry Kissinger; and celebrations of the writers and thinkers whose work meant most to him"--

Educating Students in Poverty Jun 12 2021 Tackling a growing challenge in today's schools, experienced educators Lineburg and Gearheart present an honest picture of how poverty affects students, families, and the school community at large. They offer a host of practical applications that can be used in every school district in America to meet those challenges head-on! Written for preK-12 teachers, leaders, and staff, *Educating Students in Poverty* provides essential strategies to help socioeconomically disadvantaged students achieve academic and lifelong success. Backed up with firsthand experiences and relevant research, these proactive instructional and administrative approaches cover a variety of topics, including: Advocating for underprivileged students Improving school climate and culture Engaging and communicating with families Instructional techniques and discipline issues Student health and safety This book is a must-have resource for any educator whose goal is to maximize the learning potential of every student.

The Queen's Bastard Feb 06 2021 An exquisite sequel to "The Secret Diary of Anne Boleyn", "Maxwell's second novel breathes extraordinary life into the scandals, political intrigue, and gut-wrenching battles that typified Queen Elizabeth's reign" ("Publishers Weekly").

Historical Dictionary of Ancient India Aug 27 2022 India's history and culture is ancient and dynamic, spanning back to the beginning of human civilization. Beginning with a mysterious culture along the Indus River and in farming communities in the southern lands of India, the history of India is punctuated by constant integration with migrating peoples and with the diverse cultures that surround the country. Placed in the center of Asia, history in India is a crossroads of cultures from China to Europe, as well as the most significant Asian connection with the cultures of Africa. The Historical Dictionary of Ancient India provides information ranging from the earliest Paleolithic cultures in the Indian subcontinent to 1000 CE. The ancient history of this country is related in this book through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on rulers, bureaucrats, ancient societies, religion, gods, and philosophical ideas.

Amazing World Atlas May 31 2020 Finally, Lonely Planet has made the Atlas kids have been waiting for! With 160 pages of illustrated maps, engaging infographics, mind-blowing photography and a large dose of humour, this is the atlas that shows kids aged 8 and up what the world is really like.

Mobile Crane Manual Apr 03 2023

Walking the Plank Oct 17 2021 "Walking the Plank: To a Dhimmi Nation" reveals how America has been systematically submitting to Islam for decades as American businessmen and politicians endorse Islamic causes in exchange for oil, money, and power. Mary Christina Love describes Islam as a Russian Doll, with each victory leading to a larger victory. She shows how Islam is exerting increasing influence on America through immigration, oil economics, cultural exchange, education, political correctness, financial contributions, and the threat of terror; with 9/11 instrumental in enabling Islamic expansion in the United States by destroying evidence of who the world's real imperialists are, and affording Muslims an affront to feel aggrieved and demand special protection status. Cohorts in what could result in the largest coup d'état ever, Globalists and Islamists are allies that use a potpourri of tactics to eliminate Capitalism and Democracy to create a one-world government. The global warming theory, the recent financial crisis, the bailout, cap and trade, and the health care plan will establish a framework that if successful, will ultimately drive America into generations of dhimmitude. Mary Christina Love describes dhimmitude, a pacifist reaction to aggression, as submission to Islamic demands resulting from cowardice, vulnerability, bribery and extortion. A dhimmi is a non-Muslim entity that accepts the conditions of Islamic law and remains safe by surrendering to Islamic terms. She provides current, and historical examples such as the Barbary Wars, to show how America is submitting to Islam through concession and appeasement under coercion and constant fear of reprisal.

A House to Remember Nov 17 2021 What happened at 10 Rillington Place was so shocking and gruesome that even today everyone over a certain age still remembers the case with a shudder. In 1950, Timothy Evans was hanged for the violent murder of his baby daughter; he was also assumed to have murdered his wife. Then, less than three years later, another tenant, John Christie, was found to have killed at least six women, hiding their bodies in the garden, under floorboards and in a concealed kitchen alcove. Christie followed Evans to the gallows. It seemed unlikely that two murderers were living at 10 Rillington Place, and the evidence that emerged in the Christie case eventually led to Evans receiving a pardon. But there was also circumstantial evidence that Evans had indeed killed his wife and child. Crime student Edna Gammon firmly believes that Evans was guilty. In *A House To Remember*, she explains why.

Manga Messengers Jul 14 2021 Retells the stories of the prophets, in graphic novel format.

Financialization and the US Economy Dec 07 2020 Profound transformations have taken place both in the US and the global economy, most especially in the realm of finance. This title brings together a comprehensive analysis of financialization in the US economy that encompasses historical, theoretical, and empirical sides of the issues.

Skin Jul 02 2020 A freak storm has spawned three tornadoes that are bearing down on the town of Summerville. Yet under the cover of the storm looms a much more ominous threat: A vindictive killer known as Red who's left a string of victims in his wake and is now bent on exacting his final revenge on the

unsuspecting town. But there is an enigma surrounding Red that the FBI is unwilling to admit-closely guarded secrets of something gone terribly wrong beneath the skin of Summerville. Secrets that will destroy far more than one small town. Wendy Davidson is caught in the middle. She's a recovering cult survivor who takes refuge in Summerville on her way to visit her estranged mother. And with her, four strangers, any of whom could be the next victim . . . or the killer.

TPM in Process Industries Dec 31 2022 Process industries have a particularly urgent need for collaborative equipment management systems, but until now have lacked for programs directed toward their specific needs. TPM in Process Industries brings together top consultants from the Japan Institute of Plant Maintenance to modify the original TPM Development Program. In this volume, they demonstrate how to analyze process environments and equipment issues including process loss structure and calculation, autonomous maintenance, equipment and process improvement, and quality maintenance. For all organizations managing large equipment, facing low operator/machine ratios, or implementing extensive improvement, this text is an invaluable resource.

From Matter to Life Apr 10 2021 This book tackles the most difficult and profound open questions about life and its origins from an information-based perspective.

Self-Hypnosis For Dummies Oct 05 2020 Self-Hypnosis For Dummies is a hands-on guide to achieving your goals using hypnosis. Whether you want to lose weight, overcome anxiety or phobias, cure insomnia, stop smoking, or simply stop biting your nails, this guide has it covered! The reassuring and straight-talking information will help you harness the power of your mind and re-train your subconscious to think in more healthy and constructive ways, and to overcome specific issues, such as anxiety and paranoia, and break bad habits, such as smoking. The easy-to-follow style will guide you through every step of the process, empowering you to take control and start making changes right away.

Safety Inspection and Testing of Lifting Devices Nov 29 2022

MCSE Windows 2000 Professional Mar 02 2023 Mike Meyers, the industry expert on professional certification, brings readers this concise, affordable, and portable study tool for the MCSE Windows 2000 Professional certification exam. With an intensive focus on only what is needed to know to pass exam 70-210 plus practice exam software on CD, this Certification Passport is the ticket to success on exam day. **The Essential Guide to the New FRCR Part 2A and Radiology Boards** Oct 29 2022 This study aid for the Fellowship of the Royal College of Radiologists (FRCR) examination reviews facts about the thorax, cardiovascular and gastrointestinal systems, obstetrics, pediatrics, central nervous system, head and neck, genitourinary anatomy, and breast tissue.

Mycotoxins - Quo Vadis? Feb 27 2020

Dynamics of Contact-Induced Language Change Sep 27 2022 Open publication The volume deals with previously undescribed morphosyntactic variations and changes appearing in settings involving language contact. Contact-induced changes are defined as dynamic and multiple, involving internal change as well as historical and sociolinguistic factors. A variety of explanations are identified and their relationships are analyzed. Only a multifaceted methodology enables this fine-grained approach to contact-induced change. A range of methodologies are proposed, but the chapters generally have their roots in a typological perspective. The contributors recognize the precautionary principle: for example, they emphasize the difficulty of studying languages that have not been described adequately and for which diachronic data are not extensive or reliable. Three main perspectives on contact-induced language change are presented. The first explores the role of multilingual speakers in contact-induced language change, especially their spontaneous innovations in discourse. The second explores the differences between ordinary contact-induced change and change in endangered languages. The third discusses various aspects of the relationship between contact-induced change and internal change.

Grid-Scale Energy Storage Systems and Applications May 24 2022 Grid-Scale Energy Storage Systems and Applications provides a timely introduction to state-of-the-art technologies and important demonstration projects in this rapidly developing field. Written with a view to real-world applications, the authors describe storage technologies and then cover operation and control, system integration and battery management, and other topics important in the design of these storage systems. The rapidly-developing area of

electrochemical energy storage technology and its implementation in the power grid is covered in particular detail. Examples of Chinese pilot projects in new energy grids and micro grids are also included. Drawing on significant Chinese results in this area, but also including data from abroad, this will be a valuable reference on the development of grid-scale energy storage for engineers and scientists in power and energy transmission and researchers in academia. Addresses not only the available energy storage technologies, but also topics significant for storage system designers, such as technology management, operation and control, system integration and economic assessment Draws on the wealth of Chinese research into energy storage and describes important Chinese energy storage demonstration projects Provides practical examples of the application of energy storage technologies that can be used by engineers as references when designing new systems

Performance Exhaust Systems Nov 05 2020 To extract maximum performance, an engine needs an efficient, well-designed, and properly tuned exhaust system. In fact, the exhaust system's design, components, and materials have a large impact on the overall performance of the engine. Engine builders and car owners need to carefully consider the exhaust layout, select the parts, and fabricate the exhaust system that delivers the best performance for car and particular application. Master engine builder and award-winning writer Mike Mavrigian explains exhaust system principles, function, and components in clear and concise language. He then details how to design, fabricate, and fit exhaust systems to classic street cars as well as for special and racing applications. Air/exhaust-gas flow dynamics and exhaust system design are explained. Cam duration and overlap are also analyzed to determine how an engine breathes in air/fuel, as the exhaust must efficiently manage this burned mixture. Pipe bending is a science as well as art and you're shown how to effectively crush and mandrel bend exhaust pipe to fit your header/manifold and chassis combination. Header tube diameter and length is taken into account, as well as the most efficient catalytic converters and resonators for achieving your performance goals. In addition, Mavrigian covers the special exhaust system requirements for supercharged and turbocharged systems. When building a high-performance engine, you need a high-performance exhaust system that's tuned and fitted to that engine so you can realize maximum performance. This comprehensive book is your guide to achieving ultimate exhaust system performance. It shows you how to fabricate a system for custom applications and to fit the correct prefabricated system to your car. No other book on the market is solely dedicated to fabricating and fitting an exhaust system in high-performance applications.

Bently & Egg Jan 20 2022 A shy, singing frog is left in charge of a very special egg that changes his life.

Manga Majesty Aug 15 2021 This last book in the six-volume series from NEXTmanga combines cutting-edge illustration with fast-paced storytelling to deliver biblical truth to an ever-changing, postmodern culture. More than 10 million books in over 40 different languages have been distributed worldwide in the series.

Mood Mapping Feb 01 2023 Mood mapping simply involves plotting how you feel against your energy levels, to determine your current mood. Dr Liz Miller then gives you the tools you need to lift your low mood, so improving your mental health and wellbeing. Dr Miller developed this technique as a result of her own diagnosis of bipolar disorder (manic depression), and of overcoming it, leading her to seek ways to improve the mental health of others. This innovative book illustrates: * The Five Keys to Moods: learn to identify the physical or emotional factors that affect your moods * The Miller Mood Map: learn to visually map your mood to increase self-awareness * Practical ways to implement change to alleviate low mood Mood mapping is an essential life skill; by giving an innovative perspective to your life, it enables you to be happier, calmer and to bring positivity to your own life and to those around you. 'A gloriously accessible read from a truly unique voice' Mary O'Hara, Guardian 'It's great to have such accessible and positive advice about our moods, which, after all, govern everything we do. I love the idea of MoodMapping' Dr Phil Hammond 'Can help you find calm and take the edge off your anxieties' Evening Standard 'MoodMapping is a fantastic tool for managing your mental health and taking control of your life' Jonathan Naess, Founder of Stand to Reason

How Cool Are Penguins Apr 30 2020 How Cool Are Penguins is a book that will introduce young children to the world of penguins. It is written and illustrated in a fun and informative way that will entertain both the young and the young at heart.
