Clear. I am a mother whose child is being abused and exploited. And I am not alone. In 2011, former Dynasty star Catherine Oxenberg joined her daughter, India, at a leadership seminar for a new organization called NXIVM. Her then twenty-year-old daughter was on the threshold of starting her own professional life and they both thought this program might help her achieve her dream. But quickly, Catherine saw a sinister side to the program that claimed to simply want to help its clients become the best versions of themselves. Catherine watched in horror as her daughter fell further and further down the rabbit hole, falling under the spell of NXIVM's hypnotic leader, Keith Raniere. Despite Catherine's best efforts, India was drawn deeper into the cult, eventually joining an elite "sorority" of women members who were ordered to maintain a restricted diet, recruit other women as "slaves," and were branded with their leader's initials. In *Captive*, Catherine shares every parent's worst nightmare, and the lengths that a mother will go to save her child. Catherine's efforts finally led the FBI to take notice—and the journey is not yet over. A powerful depiction of a mother's love and determination, and with horrifying insider details never revealed in any news story, *Captive* will keep you reading until the very last page.

The Common Marmoset in Captivity and Biomedical Research Jul 09 2021 The Common Marmoset in Captivity and Biomedical Research is the first text dedicated exclusively

to this species, filling an urgent need for an encyclopedic compilation of the existing information. Sponsored by the American College of Laboratory Animal Medicine as part of its authoritative Blue Book series, the book covers the biology, management, diseases, and clinical and research applications of this important species. The common marmoset (*Callithrix jacchus*) has come of age in the scientific community as a behaviorally complex, cognitively advanced, small, prolific, and easily maintained nonhuman primate with many of the advantages of larger animals, such as macaques, but without the attendant physical and zoonotic risks. Marmosets are currently being used in diverse areas of inquiry, including vision and auditory research, infectious disease, cognitive neuroscience, behavior, reproductive biology, toxicology and drug development, and aging. The marmoset genome has been sequenced and there is currently an intensive effort to apply gene editing technologies to the species. The creation of transgenic marmosets will provide researchers with a small nonhuman primate model to study a number of poorly understood disorders, like autism. Presents a complete view of the marmoset, covering their biology and management, diseases and clinical applications, and research contributions from renowned and international authors and editors Provides the first authoritative and

comprehensive treatment of marmosets in biomedical research as part of the ACLAM Series

The Last Girl Apr 18 2022 WINNER OF THE NOBEL PEACE PRIZE • In this "courageous" (The Washington Post) memoir of survival, a former captive of the Islamic State tells her harrowing and ultimately inspiring story. Nadia Murad was born and raised in Kocho, a small village of farmers and shepherds in northern Iraq. A member of the Yazidi community, she and her brothers and sisters lived a quiet life. Nadia had dreams of becoming a history teacher or opening her own beauty salon. On August 15th, 2014, when Nadia was just twenty-one years old, this life ended. Islamic State militants massacred the people of her village, executing men who refused to convert to Islam and women too old to become sex

slaves. Six of Nadia's brothers were killed, and her mother soon after, their bodies swept into mass graves. Nadia was taken to Mosul and forced, along with thousands of other Yazidi girls, into the ISIS slave trade. Nadia would be held captive by several militants and repeatedly raped and beaten. Finally, she managed a narrow escape through the streets of Mosul, finding shelter in the home of a Sunni Muslim family whose eldest son risked his life to smuggle her to safety.

Today, Nadia's story—as a witness to the Islamic State's brutality, a survivor of rape, a refugee, a Yazidi—has forced the world to pay attention to an ongoing genocide. It is a call to action, a testament to the human will to survive, and a love letter to a lost country, a fragile community, and a family torn apart by war.

The Captive - The Power Dec 26 2022 Lured into the most popular in-crowd imaginable, Cassie is intoxicated by her newfound strength and power. Bewitched by the promise of love through magic, Cassie captures Adam's heart and upsets the delicate balance of power.

The Welfare of Domestic Fowl and Other Captive Birds Jul 29 2020 Animal welfare is attracting increasing interest worldwide, especially in developed countries where the knowledge and resources are available to (at least potentially) provide better management systems for farm animals, as well as companion, zoo and laboratory animals. The key requirements for adequate food, water, a

suitable environment, appropriate companionship and good health are important for animals kept for all of these purposes. There has been increased attention given to farm animal welfare in many countries in recent years. This derives largely from the fact that the relentless pursuit of financial reward and efficiency, to satisfy market demands, has led to the development of intensive animal production systems that challenge the conscience of many consumers in those countries. In developing countries, human survival is still a daily uncertainty, so that provision for animal welfare has to be balanced against human needs. Animal welfare is usually a priority only if it supports the output of the animal, be it food, work, clothing, sport or companionship. In principle the welfare needs of both humans and animals can be provided for, in both developing and developed countries, if resources are properly husbanded. In reality, however, the inequitable division of the world's riches creates physical and psychological poverty for humans and animals alike in many parts of the world.
