ý.....Dr. GeorgeýS Comprehensive Study Is Thus Valuable, Not Only For Throwing A Revealing Light On The Immediate Subject, But Also For Its Relevance To The Wider Subject Of Western Influence On India As A Whole....It Is Only After Inquiries Have Been Conducted In Depth, Like Dr. GeorgeýS Covering The Whole Country And All The Divers Aspects Of The Problem That Anything Like A Definitive Picture For All India Can Be Expected To Emerge. But Even By Itself, Dr. GeorgeýS Study Has An Importance Transcending Malayalam Language And Literature Or The Life And Culture Of The People Of Kerala....ý The global trend in the scholarly field of ecocriticism (or, broadly, environmental humanities) is shifting towards localized sub-areas. This shift has been instrumental in canonizing local, subaltern, postcolonial, and unheard voices in ecocriticism. Such ecocriticism has gained relevant significance in the disciplines of humanities and social sciences, and boldly displays diverse ecocultural perspectives on communities, societies, languages and literatures—all of these being distinctly different from each other. Weaving a unique, ecocritical narrative from the rich literary and cultural texts belonging to Kerala, this volume presents several ecocritical perspectives, written by award-winning writers in Malayalam. This is the first detailed description of Malayalam, a major Dravidian language spoken principally in the southern part of India. Malayalam provides in-depth analysis of the linguistic richness of this language, spoken by over 35 million people on India's Malabar coast. A full account of the syntax, morphology and phonology of the language is provided, along with information on a number of structured semantic fields. This book, using Malayalam as a case study, provides an in-depth exploration of how inflectional suffixes should be separated from the verb and the implications this has for the syntax and semantics. Past work has proposed that Malayalam lacks a Tense Phrase and tense morphology, i.e. is 'tenseless'. However, this book shows that Malayalam behaves differently from other tenseless languages and that it does have tense morphology. It also provides

evidence that there is a Tense Phrase in the syntax. In addition, it examines what have been called the two 'imperfectives' and argues that one is a type of progressive, while the other is a pluractional marker and shows that Malayalam lacks perfect morphology and a Perfect Phrase in, minimally, Universal perfects. With respect to finiteness, among other things, it argues that Conjunctive Participles are best analyzed as a type of absolutive adjunct and that -athu 'gerunds' involve nominalization above the Tense Phrase-level. This book will be a valuable resource for anyone interested in cross-linguistic variation in Tense-Aspect-Modality and/or the morphosyntax or morphosemantics of Dravidian languages.
